COVID-19 Reported Cases per 100,000 Population (last 7 days) and Percent of Total Population Fully Vaccinated

The purpose of this report is to develop a shared understanding of the current status of the pandemic at the national, regional, state, and local levels. We recognize that data at the state level may differ from that available at the federal level. Our objective is to use consistent data sources and methods that allow for comparisons to be made across localities. We appreciate your continued support in identifying data discrepancies and improving data completeness and sharing across systems. We look forward to your feedback. All inquiries and requests for information should be directed to <https://www.cdc.gov/dcs/ContactUs/Form>.

* Indicates absolute change in percentage points.

** Due to delayed reporting, this figure may underestimate total diagnostic tests and week-on-week changes in diagnostic tests.

DATA SOURCES

Note: Some dates may have incomplete data due to delays in reporting. Data may be backfilled over time, resulting in week-to-week changes.**Cases and Deaths:** State values are aggregated data provided by the states to the CDC. Historical reports of cases and deaths exceeding 1% of the total new cases or deaths reported in the US that day have been excluded. Data is through 8/5/2021; previous week is from 7/23 to 7/29.**Testing:** CELR (COVID-19 Electronic Lab Reporting) state health department-reported data. The term Nucleic Acid Amplification Test (NAAT) includes RT-PCR and other testing methods. Test positivity through 8/3/2021; previous week is from 7/21 to 7/27. Test volume through 7/30/2021; previous week is from 7/17 to 7/23.**Admissions:** Unified Hospitals Dataset in HHS Protect. Data is through 8/4, previous week is from 7/22 to 7/28.**Shortages:** Unified Hospitals Dataset in HHS Protect. Values presented show the latest reports from hospitals in the week ending 8/4/2021 for staffing and the week ending 8/4/2021 for supplies.**Vaccinations:** [CDC COVID Data Tracker](#). Data includes the Moderna, Pfizer BioNTech, and J&J/Janssen COVID-19 vaccines and reflects current data available as of 10:29 EDT on 08/06/2021. Data last updated 06:00 EDT on 08/06/2021. People initiating vaccination include those who have received the first dose of the Moderna or Pfizer-BioNTech vaccine as well as those who have received one dose of the J&J/Janssen vaccine. Population denominators reflect the subset of the population of the corresponding age range.**METHODS:** Details available on last two pages of report.

PERCENT OF 18+ POPULATION FULLY VACCINATED

PERCENT OF 65+ POPULATION FULLY VACCINATED

DATA SOURCES

County reporting completeness for Alabama is 91.8%.

Vaccinations: [CDC COVID Data Tracker](#). Data includes the Moderna, Pfizer BioNTech, and J&J/Janssen COVID-19 vaccines and reflects current data available as of 10:29 EDT on 08/06/2021. Data last updated 06:00 EDT on 08/06/2021. Persons who are fully vaccinated include those who have received both doses of the Moderna or Pfizer-BioNTech vaccine as well as those who have received one dose of the J&J/Janssen vaccine. Allocations are made pro rata (equal based on population) from which jurisdictions are then to order.

METHODS: Details available on last two pages of report.

ALABAMA

STATE PROFILE REPORT | 08.06.2021

100 hospitals are expected to report in Alabama

HOSPITAL ADMISSIONS

HOSPITAL PPE SUPPLIES

DATA SOURCES

Hospitalizations: Unified Hospitals Dataset in HHS Protect. These data exclude psychiatric, rehabilitation, and religious non-medical hospitals. Hospitals explicitly identified by states/regions as those from which we should not expect reports were excluded from the percent reporting figure. Data is through 8/4/2021.

PPE: Unified Hospitals Dataset in HHS Protect. These data exclude psychiatric, rehabilitation, and religious non-medical hospitals. Values presented show the latest reports from hospitals in the week ending 8/4/2021.

METHODS: Details available on last two pages of report.

ALABAMA

STATE PROFILE REPORT | 08.06.2021

COMMUNITY TRANSMISSION BY COUNTY AND METRO AREA

COUNTIES AND METRO AREAS BY COMBINED TRANSMISSION LEVEL

CATEGORY	LOW TRANSMISSION BLUE	MODERATE TRANSMISSION YELLOW	SUBSTANTIAL TRANSMISSION ORANGE	HIGH TRANSMISSION RED
# OF COUNTIES (CHANGE)	0 (0)	1 (0)	0 (↓3)	66 (↑3)
# OF METRO AREAS (CHANGE)	0 (0)	0 (0)	0 (0)	27 (0)

All Yellow Counties: Choctaw

All Red Counties: Mobile, Jefferson, Baldwin, Madison, Shelby, Montgomery, Houston, Tuscaloosa, Lee, Coffee, Dale, Etowah, Marshall, Calhoun, Limestone, St. Clair, Lauderdale, Escambia, Cullman, Elmore, Morgan, DeKalb, Covington, Talladega, Blount, Walker, Tallapoosa, Autauga, Geneva, Franklin, Chilton, Colbert, Jackson, Russell, Chambers, Henry, Monroe, Pike, Bibb, Washington, Barbour, Pickens, Clarke, Randolph, Marion, Winston, Crenshaw, Butler, Cherokee, Lawrence, Dallas, Hale, Clay, Marengo, Macon, Conecuh, Fayette, Lamar, Coosa, Wilcox, Lowndes, Cleburne, Sumter, Perry, Greene, Bullock

All Red CBSAs: Birmingham-Hoover, Mobile, Daphne-Fairhope-Foley, Huntsville, Montgomery, Dothan, Tuscaloosa, Auburn-Opelika, Florence-Muscle Shoals, Enterprise, Ozark, Gadsden, Albertville, Decatur, Anniston-Oxford, Atmore, Cullman, Fort Payne, Talladega-Sylacauga, Alexander City, Jasper, Scottsboro, Columbus, LaGrange, Troy, Eufaula, Selma

DATA SOURCES

Maps and figures reflect 7-day average of data from 7/30-8/5 (cases), 7/28-8/3 (tests). Metro areas and counties are listed in order of the total number of cases in the last week from largest to smallest.

Note: Most recent days may have incomplete reporting.

Cases: County-level data is from a CDC managed aggregate county dataset compiled from state and local health departments; therefore, the values may not match those reported directly by the state. Data is through 8/5/2021.

Testing: CELR (COVID-19 Electronic Lab Reporting) state health department-reported data. Data is through 8/3/2021.

Combined Transmission Level: If the two indicators suggest different transmission levels, the higher level is selected. Previous week transmission levels are computed based on current data. See [CDC COVID Data Tracker](#).

METHODS: Details available on last two pages of report.

STATE PROFILE REPORT | 08.06.2021

COMMUNITY TRANSMISSION BY COUNTY AND METRO AREA

COUNTIES AND METRO AREAS BY COMBINED TRANSMISSION LEVEL

CATEGORY	LOW TRANSMISSION BLUE	MODERATE TRANSMISSION YELLOW	SUBSTANTIAL TRANSMISSION ORANGE	HIGH TRANSMISSION RED
# OF COUNTIES (CHANGE)	0 (0)	0 (↓2)	3 (↑1)	12 (↑1)
# OF METRO AREAS (CHANGE)	0 (0)	0 (↓2)	3 (↑1)	8 (↑1)

All Orange Counties: Pima, Cochise, Graham

All Orange CBSAs: Tucson, Sierra Vista-Douglas, Safford

All Red Counties: Maricopa, Pinal, Yavapai, Mohave, Coconino, Navajo, Yuma, Apache, Gila, Santa Cruz, La Paz, Greenlee

All Red CBSAs: Phoenix-Mesa-Chandler, Prescott Valley-Prescott, Lake Havasu City-Kingman, Flagstaff, Show Low, Yuma, Payson, Nogales

DATA SOURCES

Maps and figures reflect 7-day average of data from 7/30-8/5 (cases), 7/28-8/3 (tests). Metro areas and counties are listed in order of the total number of cases in the last week from largest to smallest.

Note: Most recent days may have incomplete reporting.

Cases: County-level data is from a CDC managed aggregate county dataset compiled from state and local health departments; therefore, the values may not match those reported directly by the state. Data is through 8/5/2021.

Testing: CELR (COVID-19 Electronic Lab Reporting) state health department-reported data. Data is through 8/3/2021.

Combined Transmission Level: If the two indicators suggest different transmission levels, the higher level is selected. Previous week transmission levels are computed based on current data. See [CDC COVID Data Tracker](#).

METHODS: Details available on last two pages of report.

COVID-19 Reported Cases per 100,000 Population (last 7 days) and Percent of Total Population Fully Vaccinated

The purpose of this report is to develop a shared understanding of the current status of the pandemic at the national, regional, state, and local levels. We recognize that data at the state level may differ from that available at the federal level. Our objective is to use consistent data sources and methods that allow for comparisons to be made across localities. We appreciate your continued support in identifying data discrepancies and improving data completeness and sharing across systems. We look forward to your feedback. All inquiries and requests for information should be directed to <https://wwwn.cdc.gov/dcs/ContactUs/Form>.

STATE PROFILE REPORT | 08.06.2021

COMMUNITY TRANSMISSION BY COUNTY AND METRO AREA

COUNTIES AND METRO AREAS BY COMBINED TRANSMISSION LEVEL

CATEGORY	LOW TRANSMISSION BLUE	MODERATE TRANSMISSION YELLOW	SUBSTANTIAL TRANSMISSION ORANGE	HIGH TRANSMISSION RED
# OF COUNTIES (CHANGE)	0 (↓3)	1 (↓3)	5 (↓12)	52 (↑18)
# OF METRO AREAS (CHANGE)	0 (0)	0 (↓2)	2 (↓8)	32 (↑10)

All Yellow Counties: Modoc

All Orange Counties: Santa Clara, Monterey, San Benito, Glenn, Mono

All Orange CBSAs: San Jose-Sunnyvale-Santa Clara, Salinas

All Red Counties: Los Angeles, San Diego, Riverside, Orange, San Bernardino, Sacramento, Contra Costa, Alameda, Imperial, San Francisco, Kern, Fresno, Stanislaus, San Joaquin, Santa Barbara, Ventura, San Mateo, Sonoma, Placer, Solano, Tulare, Butte, Nevada, Yolo, El Dorado, San Luis Obispo, Kings, Merced, Humboldt, Shasta, Marin, Lake, Santa Cruz, Tuolumne, Sutter, Yuba, Madera, Mendocino, Napa, Del Norte, Tehama, Amador, Calaveras, Siskiyou, Lassen, Mariposa, Inyo, Plumas, Trinity, Colusa, Sierra, Alpine

All Red CBSAs: Los Angeles-Long Beach-Anaheim, San Francisco-Oakland-Berkeley, Riverside-San Bernardino-Ontario, San Diego-Chula Vista-Carlsbad, Sacramento-Roseville-Folsom, El Centro, Bakersfield, Fresno, Modesto, Stockton, Santa Maria-Santa Barbara, Oxnard-Thousand Oaks-Ventura, Santa Rosa-Petaluma, Vallejo, Visalia, Yuba City, Chico, Truckee-Grass Valley, San Luis Obispo-Paso Robles, Hanford-Corcoran, Merced, Eureka-Arcata, Redding, Clearlake, Santa Cruz-Watsonville, Sonoma, Madera, Ukiah, Napa, Crescent City, Red Bluff, Susanville

DATA SOURCES

Maps and figures reflect 7-day average of data from 7/30-8/5 (cases), 7/28-8/3 (tests). Metro areas and counties are listed in order of the total number of cases in the last week from largest to smallest.

Note: Most recent days may have incomplete reporting.

Cases: County-level data is from a CDC managed aggregate county dataset compiled from state and local health departments; therefore, the values may not match those reported directly by the state. Data is through 8/5/2021.

Testing: CELR (COVID-19 Electronic Lab Reporting) state health department-reported data. Data is through 8/3/2021.

Combined Transmission Level: If the two indicators suggest different transmission levels, the higher level is selected. Previous week transmission levels are computed based on current data. See [CDC COVID Data Tracker](#).

METHODS: Details available on last two pages of report.

** Due to delayed reporting, this figure may underestimate total diagnostic tests and week-on-week changes in diagnostic tests.

DATA SOURCES

Note: Some dates may have incomplete data due to delays in reporting. Data may be backfilled over time, resulting in week-to-week changes.

Cases and Deaths: State values are aggregated data provided by the states to the CDC. Historical reports of cases and deaths exceeding 1% of the total new cases or deaths reported in the US that day have been excluded. Data is through 8/5/2021; previous week is from 7/23 to 7/29.

Testing: CELR (COVID-19 Electronic Lab Reporting) state health department-reported data. The term Nucleic Acid Amplification Test (NAAT) includes RT-PCR and other testing methods. Test positivity through 8/3/2021; previous week is from 7/21 to 7/27. Test volume through 7/30/2021; previous week is from 7/17 to 7/23.

Admissions: Unified Hospitals Dataset in HHS Protect. Data is through 8/4, previous week is from 7/22 to 7/28.

Shortages: Unified Hospitals Dataset in HHS Protect. Values presented show the latest reports from hospitals in the week ending 8/4/2021 for staffing and the week ending 8/4/2021 for supplies.

Vaccinations: [CDC COVID Data Tracker](#). Data includes the Moderna, Pfizer BioNTech, and J&J/Janssen COVID-19 vaccines and reflects current data available as of 10:29 EDT on 08/06/2021. Data last updated 06:00 EDT on 08/06/2021. People initiating vaccination include those who have received the first dose of the Moderna or Pfizer-BioNTech vaccine as well as those who have received one dose of the J&J/Janssen vaccine. Population denominators reflect the subset of the population of the corresponding age range.

METHODS: Details available on last two pages of report.

COVID-19 Reported Cases per 100,000 Population (last 7 days) and Percent of Total Population Fully Vaccinated

The purpose of this report is to develop a shared understanding of the current status of the pandemic at the national, regional, state, and local levels. We recognize that data at the state level may differ from that available at the federal level. Our objective is to use consistent data sources and methods that allow for comparisons to be made across localities. We appreciate your continued support in identifying data discrepancies and improving data completeness and sharing across systems. We look forward to your feedback. All inquiries and requests for information should be directed to <https://wwwn.cdc.gov/dcs/ContactUs/Form>.

COVID-19 Reported Cases per 100,000 Population (last 7 days) and Percent of Total Population Fully Vaccinated

The purpose of this report is to develop a shared understanding of the current status of the pandemic at the national, regional, state, and local levels. We recognize that data at the state level may differ from that available at the federal level. Our objective is to use consistent data sources and methods that allow for comparisons to be made across localities. We appreciate your continued support in identifying data discrepancies and improving data completeness and sharing across systems. We look forward to your feedback. All inquiries and requests for information should be directed to <https://wwwn.cdc.gov/dcs/ContactUs/Form>.

DATA SOURCES

County reporting completeness for Florida is 98.6%.

Vaccinations: [CDC COVID Data Tracker](#). Data includes the Moderna, Pfizer BioNTech, and J&J/Janssen COVID-19 vaccines and reflects current data available as of 10:29 EDT on 08/06/2021. Data last updated 06:00 EDT on 08/06/2021. Persons who are fully vaccinated include those who have received both doses of the Moderna or Pfizer-BioNTech vaccine as well as those who have received one dose of the J&J/Janssen vaccine. Allocations are made pro rata (equal based on population) from which jurisdictions are then to order.

METHODS: Details available on last two pages of report.

FLORIDA

STATE PROFILE REPORT | 08.06.2021

214 hospitals are expected to report in Florida

HOSPITAL ADMISSIONS

HOSPITAL PPE SUPPLIES

DATA SOURCES

Hospitalizations: Unified Hospitals Dataset in HHS Protect. These data exclude psychiatric, rehabilitation, and religious non-medical hospitals. Hospitals explicitly identified by states/regions as those from which we should not expect reports were excluded from the percent reporting figure. Data is through 8/4/2021.

PPE: Unified Hospitals Dataset in HHS Protect. These data exclude psychiatric, rehabilitation, and religious non-medical hospitals. Values presented show the latest reports from hospitals in the week ending 8/4/2021.

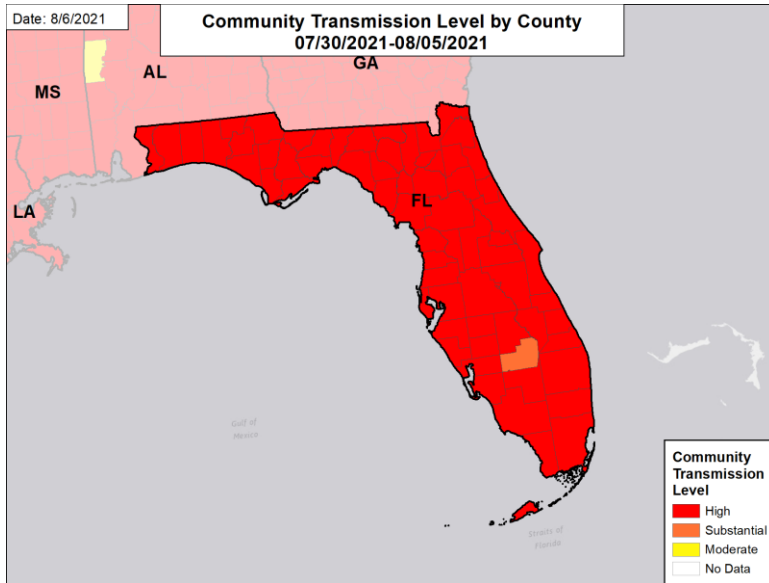

METHODS: Details available on last two pages of report.

FLORIDA

STATE PROFILE REPORT | 08.06.2021

COMMUNITY TRANSMISSION BY COUNTY AND METRO AREA

COUNTIES AND METRO AREAS BY COMBINED TRANSMISSION LEVEL

CATEGORY	LOW TRANSMISSION BLUE	MODERATE TRANSMISSION YELLOW	SUBSTANTIAL TRANSMISSION ORANGE	HIGH TRANSMISSION RED
# OF COUNTIES (CHANGE)	0 (0)	0 (0)	1 (0)	66 (0)
# OF METRO AREAS (CHANGE)	0 (0)	0 (0)	0 (0)	29 (0)

All Orange Counties: Glades

All Red Counties: Miami-Dade, Broward, Duval, Orange, Hillsborough, Palm Beach, Pinellas, Polk, Brevard, Volusia, Lee, Pasco, Seminole, Osceola, Lake, Marion, St. Johns, Escambia, St. Lucie, Clay, Manatee, Leon, Collier, Sarasota, Bay, Hernando, Alachua, Okaloosa, Nassau, Santa Rosa, Indian River, Flagler, Citrus, Charlotte, Martin, Columbia, Putnam, Walton, Sumter, Highlands, Jackson, Monroe, Suwannee, Baker, Levy, Bradford, Wakulla, Gadsden, Okeechobee, Union, Gulf, Hardee, Hendry, DeSoto, Washington, Calhoun, Holmes, Dixie, Gilchrist, Madison, Taylor, Franklin, Hamilton, Jefferson, Liberty, Lafayette

All Red CBSAs: Miami-Fort Lauderdale-Pompano Beach, Tampa-St. Petersburg-Clearwater, Orlando-Kissimmee-Sanford, Jacksonville, Deltona-Daytona Beach-Ormond Beach, Lakeland-Winter Haven, Palm Bay-Melbourne-Titusville, North Port-Sarasota-Bradenton, Cape Coral-Fort Myers, Pensacola-Ferry Pass-Brent, Port St. Lucie, Tallahassee, Ocala, Naples-Marco Island, Panama City, Gainesville, Crestview-Fort Walton Beach-Destin, Sebastian-Vero Beach, Homosassa Springs, Punta Gorda, Lake City, Palatka, The Villages, Sebring-Avon Park, Key West, Okeechobee, Wauchula, Clewiston, Arcadia

DATA SOURCES

Maps and figures reflect 7-day average of data from 7/30-8/5 (cases), 7/28-8/3 (tests). Metro areas and counties are listed in order of the total number of cases in the last week from largest to smallest.

Note: Most recent days may have incomplete reporting.

Cases: County-level data is from a CDC managed aggregate county dataset compiled from state and local health departments; therefore, the values may not match those reported directly by the state. Data is through 8/5/2021. As of 6/4, Florida is only updating their county case data on Fridays, therefore values for the last week may be an underestimate.

Testing: CELR (COVID-19 Electronic Lab Reporting) state health department-reported data. Data is through 8/3/2021.

Combined Transmission Level: If the two indicators suggest different transmission levels, the higher level is selected. Previous week transmission levels are computed based on current data. See [CDC COVID Data Tracker](#).

METHODS: Details available on last two pages of report.

PEOPLE 18+ FULLY VACCINATED	3,977,518 people	49.0% of 18+ pop.

SARS-CoV-2 Variants of Concern

- The following proportions of variants of concern have been identified in [Georgia](#): B.1.1.7 (Alpha, 17.3%), B.1.351 (Beta, 0.1%), B.1.617.2 (Delta, 61.6%), P.1 (Gamma, 3.3%)

COVID-19 Reported Cases per 100,000 Population (last 7 days) and Percent of Total Population Fully Vaccinated

The purpose of this report is to develop a shared understanding of the current status of the pandemic at the national, regional, state, and local levels. We recognize that data at the state level may differ from that available at the federal level. Our objective is to use consistent data sources and methods that allow for comparisons to be made across localities. We appreciate your continued support in identifying data discrepancies and improving data completeness and sharing across systems. We look forward to your feedback. All inquiries and requests for information should be directed to <https://wwwn.cdc.gov/dcs/ContactUs/Form>.

Note: Most recent days may have incomplete reporting.

Cases: County-level data is from a CDC managed aggregate county dataset compiled from state and local health departments; therefore, the values may not match those reported directly by the state. Data is through 8/5/2021.

Testing: CELR (COVID-19 Electronic Lab Reporting) state health department-reported data. Data is through 8/3/2021.

Combined Transmission Level: If the two indicators suggest different transmission levels, the higher level is selected. Previous week transmission levels are computed based on current data. See [CDC COVID Data Tracker](#).

METHODS: Details available on last two pages of report.

STATE PROFILE REPORT 08.06.2021

IDAHO

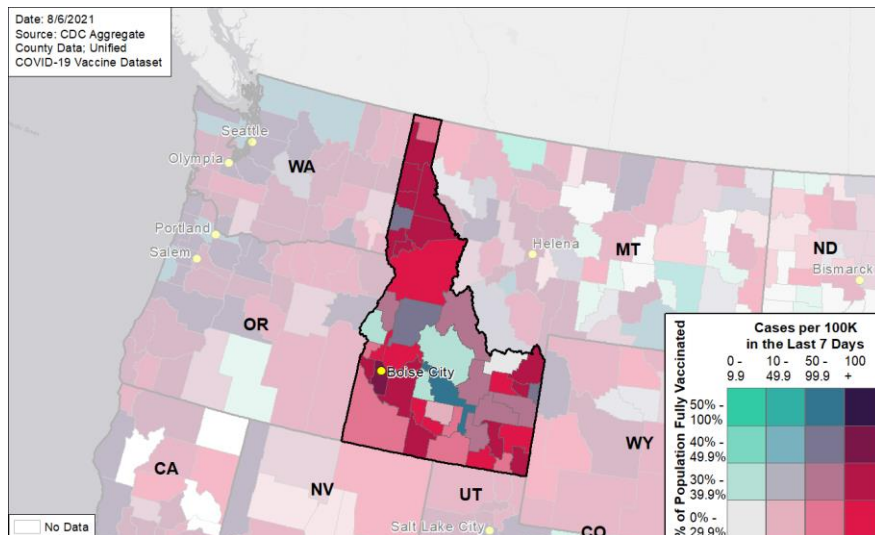

STATE SYNOPSIS

	LAST WEEK	CHANGE FROM PREVIOUS WEEK
RATE OF NEW COVID-19 CASES PER 100,000	193	+78%
NUCLEIC ACID AMPLIFICATION TEST (NAAT) POSITIVITY RATE	16.2%	+4.6%
NEW CONFIRMED COVID-19 HOSPITAL ADMISSIONS / 100 BEDS	5.3	+24%
RATE OF NEW COVID-19 DEATHS PER 100,000	1.1	+27%
COMMUNITY TRANSMISSION LEVEL	HIGH TRANSMISSION	
PEOPLE RECEIVED AT LEAST 1 DOSE	744,281 people	41.6% of total pop.
PEOPLE 18+ RECEIVED AT LEAST 1 DOSE	742,843 people	55.5% of 18+ pop.
PEOPLE FULLY VACCINATED	672,585 people	37.6% of total pop.
PEOPLE 18+ FULLY VACCINATED	671,743 people	50.2% of 18+ pop.

SARS-CoV-2 Variants of Concern

- Genomic surveillance data from Idaho are not available for inclusion in this report.

COVID-19 Reported Cases per 100,000 Population (last 7 days) and Percent of Total Population Fully Vaccinated

The purpose of this report is to develop a shared understanding of the current status of the pandemic at the national, regional, state, and local levels. We recognize that data at the state level may differ from that available at the federal level. Our objective is to use consistent data sources and methods that allow for comparisons to be made across localities. We appreciate your continued support in identifying data discrepancies and improving data completeness and sharing across systems. We look forward to your feedback. All inquiries and requests for information should be directed to <https://wwwn.cdc.gov/dcs/ContactUs/Form>.

PEOPLE 12-17 INITIATING VACCINATION (PERCENT OF POPULATION)	105 (0.1%)	-4.5%	15,201 (1.4%)	613,195 (2.4%)
PEOPLE 18+ INITIATING VACCINATION (PERCENT OF POPULATION)	10,223 (0.8%)	+22.2%	81,591 (0.7%)	2,641,065 (1.0%)

* Indicates absolute change in percentage points.

** Due to delayed reporting, this figure may underestimate total diagnostic tests and week-on-week changes in diagnostic tests.

DATA SOURCES

Note: Some dates may have incomplete data due to delays in reporting. Data may be backfilled over time, resulting in week-to-week changes.**Cases and Deaths:** State values are aggregated data provided by the states to the CDC. Historical reports of cases and deaths exceeding 1% of the total new cases or deaths reported in the US that day have been excluded. Data is through 8/5/2021; previous week is from 7/23 to 7/29.**Testing:** CELR (COVID-19 Electronic Lab Reporting) state health department-reported data. The term Nucleic Acid Amplification Test (NAAT) includes RT-PCR and other testing methods. Test positivity through 8/3/2021; previous week is from 7/21 to 7/27. Test volume through 7/30/2021; previous week is from 7/17 to 7/23.**Admissions:** Unified Hospitals Dataset in HHS Protect. Data is through 8/4, previous week is from 7/22 to 7/28.**Shortages:** Unified Hospitals Dataset in HHS Protect. Values presented show the latest reports from hospitals in the week ending 8/4/2021 for staffing and the week ending 8/4/2021 for supplies.**Vaccinations:** [CDC COVID Data Tracker](#). Data includes the Moderna, Pfizer BioNTech, and J&J/Janssen COVID-19 vaccines and reflects current data available as of 10:29 EDT on 08/06/2021. Data last updated 06:00 EDT on 08/06/2021. People initiating vaccination include those who have received the first dose of the Moderna or Pfizer-BioNTech vaccine as well as those who have received one dose of the J&J/Janssen vaccine. Population denominators reflect the subset of the population of the corresponding age range.**METHODS:** Details available on last two pages of report.

PERCENT OF 18+ POPULATION FULLY VACCINATED

PERCENT OF 65+ POPULATION FULLY VACCINATED

DATA SOURCES

County reporting completeness for Idaho is 97.7%.

Vaccinations: [CDC COVID Data Tracker](#). Data includes the Moderna, Pfizer BioNTech, and J&J/Janssen COVID-19 vaccines and reflects current data available as of 10:29 EDT on 08/06/2021. Data last updated 06:00 EDT on 08/06/2021. Persons who are fully vaccinated include those who have received both doses of the Moderna or Pfizer-BioNTech vaccine as well as those who have received one dose of the J&J/Janssen vaccine. Allocations are made pro rata (equal based on population) from which jurisdictions are then to order.

METHODS: Details available on last two pages of report.

IDAHO

STATE PROFILE REPORT | 08.06.2021

46 hospitals are expected to report in Idaho

HOSPITAL ADMISSIONS

HOSPITAL PPE SUPPLIES

DATA SOURCES

Hospitalizations: Unified Hospitals Dataset in HHS Protect. These data exclude psychiatric, rehabilitation, and religious non-medical hospitals. Hospitals explicitly identified by states/regions as those from which we should not expect reports were excluded from the percent reporting figure. Data is through 8/4/2021.

PPE: Unified Hospitals Dataset in HHS Protect. These data exclude psychiatric, rehabilitation, and religious non-medical hospitals. Values presented show the latest reports from hospitals in the week ending 8/4/2021.

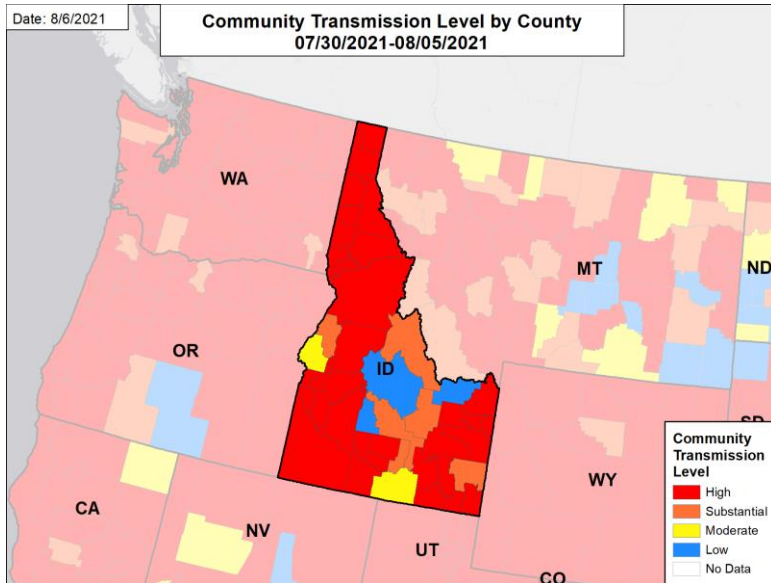

METHODS: Details available on last two pages of report.

IDAHO

STATE PROFILE REPORT | 08.06.2021

COMMUNITY TRANSMISSION BY COUNTY AND METRO AREA

COUNTIES AND METRO AREAS BY COMBINED TRANSMISSION LEVEL

CATEGORY	LOW TRANSMISSION BLUE	MODERATE TRANSMISSION YELLOW	SUBSTANTIAL TRANSMISSION ORANGE	HIGH TRANSMISSION RED
# OF COUNTIES (CHANGE)	3 (0)	2 (↓4)	6 (↓8)	33 (↑12)
# OF METRO AREAS (CHANGE)	0 (0)	0 (0)	2 (↓3)	14 (↑3)

All Blue Counties: Camas, Custer, Clark

All Yellow Counties: Cassia, Washington

All Orange Counties: Minidoka, Blaine, Lemhi, Caribou, Adams, Butte

All Orange CBSAs: Burley, Hailey

All Red Counties: Ada, Kootenai, Canyon, Twin Falls, Nez Perce, Bannock, Bonneville, Bonner, Elmore, Madison, Jerome, Shoshone, Payette, Gem, Jefferson, Bingham, Latah, Benewah, Fremont, Gooding, Clearwater, Idaho, Valley, Teton, Boundary, Boise, Owyhee, Lewis, Franklin, Bear Lake, Power, Oneida, Lincoln

All Red CBSAs: Boise City, Coeur d'Alene, Twin Falls, Lewiston, Idaho Falls, Pocatello, Rexburg, Sandpoint, Mountain Home, Ontario, Blackfoot, Moscow, Jackson, Logan

DATA SOURCES

Maps and figures reflect 7-day average of data from 7/30-8/5 (cases), 7/28-8/3 (tests). Metro areas and counties are listed in order of the total number of cases in the last week from largest to smallest.

Note: Most recent days may have incomplete reporting.

Cases: County-level data is from a CDC managed aggregate county dataset compiled from state and local health departments; therefore, the values may not match those reported directly by the state. Data is through 8/5/2021.

Testing: CELR (COVID-19 Electronic Lab Reporting) state health department-reported data. Data is through 8/3/2021.

Combined Transmission Level: If the two indicators suggest different transmission levels, the higher level is selected. Previous week transmission levels are computed based on current data. See [CDC COVID Data Tracker](#).

METHODS: Details available on last two pages of report.

* Indicates absolute change in percentage points.

** Due to delayed reporting, this figure may underestimate total diagnostic tests and week-on-week changes in diagnostic tests.

DATA SOURCES

Note: Some dates may have incomplete data due to delays in reporting. Data may be backfilled over time, resulting in week-to-week changes.**Cases and Deaths:** State values are aggregated data provided by the states to the CDC. Historical reports of cases and deaths exceeding 1% of the total new cases or deaths reported in the US that day have been excluded. Data is through 8/5/2021; previous week is from 7/23 to 7/29.**Testing:** CELR (COVID-19 Electronic Lab Reporting) state health department-reported data. The term Nucleic Acid Amplification Test (NAAT) includes RT-PCR and other testing methods. Test positivity through 8/3/2021; previous week is from 7/21 to 7/27. Test volume through 7/30/2021; previous week is from 7/17 to 7/23.**Admissions:** Unified Hospitals Dataset in HHS Protect. Data is through 8/4, previous week is from 7/22 to 7/28.**Shortages:** Unified Hospitals Dataset in HHS Protect. Values presented show the latest reports from hospitals in the week ending 8/4/2021 for staffing and the week ending 8/4/2021 for supplies.**Vaccinations:** [CDC COVID Data Tracker](#). Data includes the Moderna, Pfizer BioNTech, and J&J/Janssen COVID-19 vaccines and reflects current data available as of 10:29 EDT on 08/06/2021. Data last updated 06:00 EDT on 08/06/2021. People initiating vaccination include those who have received the first dose of the Moderna or Pfizer-BioNTech vaccine as well as those who have received one dose of the J&J/Janssen vaccine. Population denominators reflect the subset of the population of the corresponding age range.**METHODS:** Details available on last two pages of report.

DATA SOURCES

Maps and figures reflect 7-day average of data from 7/30-8/5 (cases), 7/28-8/3 (tests). Metro areas and counties are listed in order of the total number of cases in the last week from largest to smallest.

Note: Most recent days may have incomplete reporting.

Cases: County-level data is from a CDC managed aggregate county dataset compiled from state and local health departments; therefore, the values may not match those reported directly by the state. Data is through 8/5/2021.

Testing: CELR (COVID-19 Electronic Lab Reporting) state health department-reported data. Data is through 8/3/2021.

Combined Transmission Level: If the two indicators suggest different transmission levels, the higher level is selected. Previous week transmission levels are computed based on current data. See [CDC COVID Data Tracker](#).

METHODS: Details available on last two pages of report.

COVID-19 Reported Cases per 100,000 Population (last 7 days) and Percent of Total Population Fully Vaccinated

The purpose of this report is to develop a shared understanding of the current status of the pandemic at the national, regional, state, and local levels. We recognize that data at the state level may differ from that available at the federal level. Our objective is to use consistent data sources and methods that allow for comparisons to be made across localities. We appreciate your continued support in identifying data discrepancies and improving data completeness and sharing across systems. We look forward to your feedback. All inquiries and requests for information should be directed to <https://wwwn.cdc.gov/dcs/ContactUs/Form>.

All Blue Counties: Jewell, Hamilton, Decatur

All Yellow Counties: Ellsworth, Edwards, Gove, Chase, Logan, Sheridan, Rawlins

All Orange Counties: Lyon, Ellis, Coffey, Mitchell, Pawnee, Sherman, Washington, Trego, Morton, Meade, Elk, Greeley, Kiowa, Clark

All Orange CBSAs: Emporia, Hays

All Red Counties: Johnson, Sedgwick, Wyandotte, Shawnee, Leavenworth, Douglas, Crawford, Saline, Butler, Reno, Bourbon, Riley, Montgomery, Cowley, Atchison, Neosho, Franklin, Cherokee, Miami, Labette, Pottawatomie, Ford, Linn, McPherson, Dickinson, Seward, Finney, Jefferson, Allen, Harvey, Geary, Barton, Osage, Nemaha, Jackson, Pratt, Wilson, Sumner, Marshall, Doniphan, Kingman, Greenwood, Wabaunsee, Grant, Brown, Anderson, Clay, Morris, Cloud, Ottawa, Haskell, Harper, Rice, Stafford, Comanche, Chautauqua, Wallace, Norton, Marion, Gray, Ness, Rooks, Stevens, Wichita, Barber, Woodson, Thomas, Kearny, Republic, Smith, Scott, Phillips, Cheyenne, Lane, Graham, Rush, Stanton, Lincoln, Hodgeman, Osborne, Russell

All Red CBSAs: Kansas City, Wichita, Topeka, Manhattan, Lawrence, Pittsburg, Salina, Hutchinson, Coffeyville, Winfield, Atchison, Ottawa, Parsons, Dodge City, Garden City, McPherson, Liberal, Great Bend, St. Joseph

DATA SOURCES

Maps and figures reflect 7-day average of data from 7/30-8/5 (cases), 7/28-8/3 (tests). Metro areas and counties are listed in order of the total number of cases in the last week from largest to smallest.

Note: Most recent days may have incomplete reporting.

Cases: County-level data is from a CDC managed aggregate county dataset compiled from state and local health departments; therefore, the values may not match those reported directly by the state. Data is through 8/5/2021.

Testing: CELR (COVID-19 Electronic Lab Reporting) state health department-reported data. Data is through 8/3/2021.

Combined Transmission Level: If the two indicators suggest different transmission levels, the higher level is selected. Previous week transmission levels are computed based on current data. See [CDC COVID Data Tracker](#).

METHODS: Details available on last two pages of report.

COVID-19 Reported Cases per 100,000 Population (last 7 days) and Percent of Total Population Fully Vaccinated

The purpose of this report is to develop a shared understanding of the current status of the pandemic at the national, regional, state, and local levels. We recognize that data at the state level may differ from that available at the federal level. Our objective is to use consistent data sources and methods that allow for comparisons to be made across localities. We appreciate your continued support in identifying data discrepancies and improving data completeness and sharing across systems. We look forward to your feedback. All inquiries and requests for information should be directed to <https://wwwn.cdc.gov/dcs/ContactUs/Form>.

# OF PARISHES (CHANGE)	0 (0)	0 (0)	0 (0)	64 (0)
# OF METRO AREAS (CHANGE)	0 (0)	0 (0)	0 (0)	19 (0)

All Red CBSAs: Jefferson Parish, East Baton Rouge Parish, Orleans Parish, St. Tammany Parish, Lafayette Parish, Caddo Parish, Tangipahoa Parish, Ouachita Parish, Terrebonne Parish, Lafourche Parish, Ascension Parish, Livingston Parish, Calcasieu Parish, Rapides Parish, Iberia Parish, Bossier Parish, St. Charles Parish, St. Landry Parish, St. Mary Parish, Vermilion Parish, Acadia Parish, St. Bernard Parish, Washington Parish, St. John the Baptist Parish, Avoyelles Parish, St. Martin Parish, Iberville Parish, Vernon Parish, Lincoln Parish, Beauregard Parish, Evangeline Parish, St. James Parish, De Soto Parish, Plaquemines Parish, Webster Parish, Natchitoches Parish, Assumption Parish, Union Parish, West Baton Rouge Parish, East Feliciana Parish, Richland Parish, Grant Parish, Morehouse Parish, Jefferson Davis Parish, Allen Parish, Pointe Coupee Parish, Concordia Parish, Franklin Parish, Sabine Parish, Winn Parish, LaSalle Parish, Bienville Parish, Catahoula Parish, St. Helena Parish, Caldwell Parish, West Feliciana Parish, Madison Parish, West Carroll Parish, Jackson Parish, Claiborne Parish, East Carroll Parish, Red River Parish, Cameron Parish, Tensas Parish

All Red CBSAs: New Orleans-Metairie, Baton Rouge, Lafayette, Houma-Thibodaux, Shreveport-Bossier City, Monroe, Hammond, Lake Charles, Alexandria, Opelousas, Morgan City, Bogalusa, Fort Polk South, Ruston, DeRidder, Minden, Natchitoches, Jennings, Natchez

DATA SOURCES

Maps and figures reflect 7-day average of data from 7/30-8/5 (cases), 7/28-8/3 (tests). Metro areas and counties are listed in order of the total number of cases in the last week from largest to smallest.

Note: Most recent days may have incomplete reporting.

Cases: County-level data is from a CDC managed aggregate county dataset compiled from state and local health departments; therefore, the values may not match those reported directly by the state. Data is through 8/5/2021.

Testing: CELR (COVID-19 Electronic Lab Reporting) state health department-reported data. Data is through 8/3/2021. Due to technical issues, Louisiana's test positivity cannot be calculated for the last week.

Combined Transmission Level: If the two indicators suggest different transmission levels, the higher level is selected. Previous week transmission levels are computed based on current data. See [CDC COVID Data Tracker](#).

METHODS: Details available on last two pages of report.

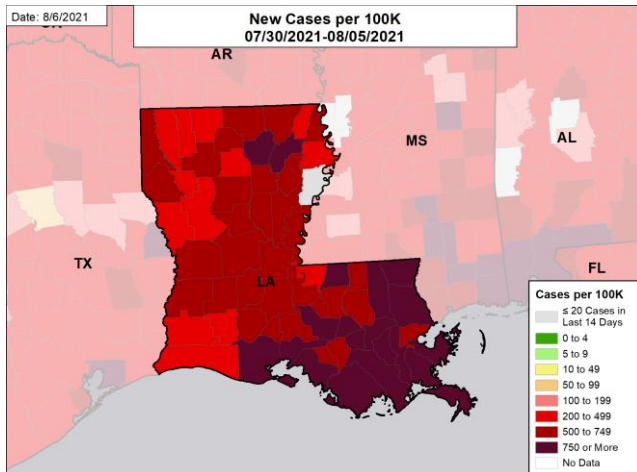

LOUISIANA

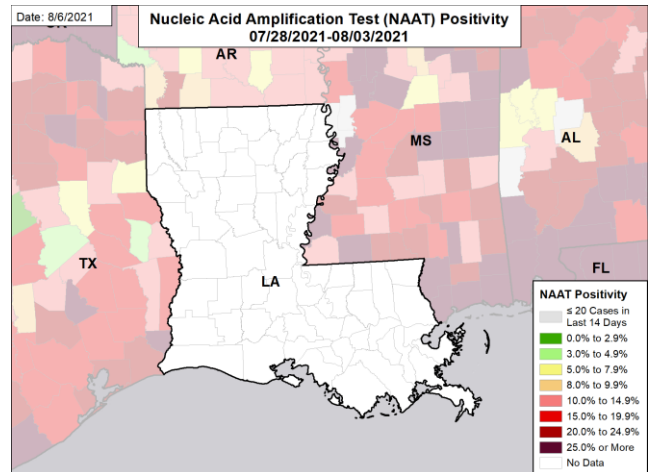

STATE PROFILE REPORT | 08.06.2021

CASE RATES, NAAT POSITIVITY, HOSPITAL ADMISSIONS, AND DEATH RATES

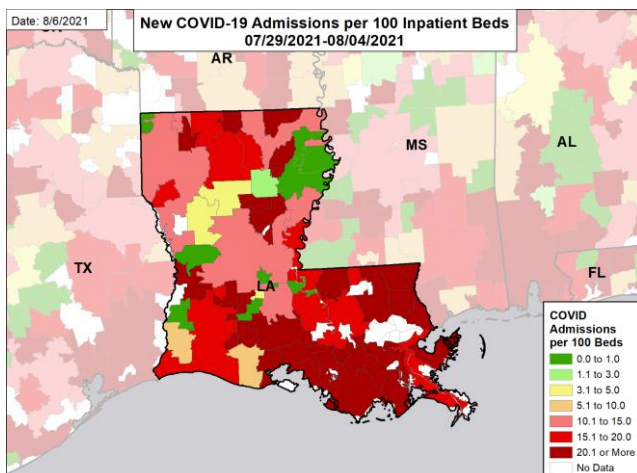

NEW CASES PER 100,000

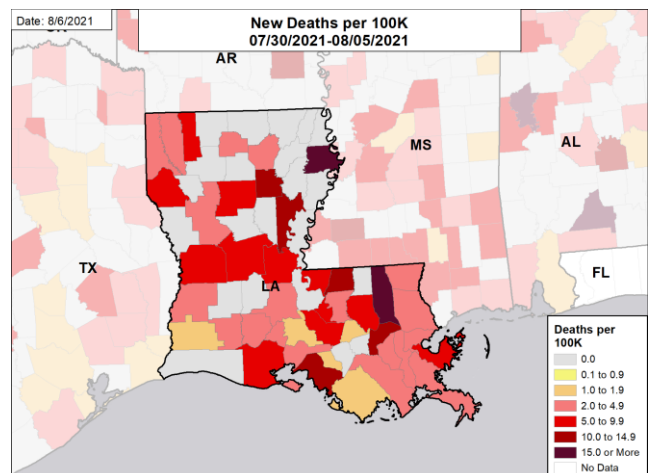

NUCLEIC ACID AMPLIFICATION TEST (NAAT) POSITIVITY

CONFIRMED NEW COVID-19 ADMISSIONS PER 100 INPATIENT BEDS

NEW DEATHS PER 100,000

DATA SOURCES

Note: Some dates may have incomplete data due to delays in reporting. Data may be backfilled over time, resulting in week-to-week changes.

Cases and Deaths: Parish-level data is from a CDC managed aggregate county dataset compiled from state and local health departments; therefore, the values may not match those reported directly by the state. Data is through 8/5/2021.

Testing: CELR (COVID-19 Electronic Lab Reporting) state health department-reported data. The term Nucleic Acid Amplification Test (NAAT) includes RT-PCR and other testing methods. Data is through 8/3/2021. Due to technical issues, Louisiana's test positivity cannot be calculated for the last week.

Hospitalizations: Unified Hospitals Dataset in HHS Protect. Totals include only confirmed COVID-19 admissions. Data is through 8/4/2021.

METHODS: Details available on last two pages of report.

PEOPLE RECEIVED AT LEAST 1 DOSE	926,764 people	68.9% of total pop.
PEOPLE 18+ RECEIVED AT LEAST 1 DOSE	877,339 people	80.1% of 18+ pop.
PEOPLE FULLY VACCINATED	862,391 people	64.2% of total pop.
PEOPLE 18+ FULLY VACCINATED	819,152 people	74.8% of 18+ pop.

SARS-CoV-2 Variants of Concern

- Genomic surveillance data from Maine are not available for inclusion in this report.

COVID-19 Reported Cases per 100,000 Population (last 7 days) and Percent of Total Population Fully Vaccinated

The purpose of this report is to develop a shared understanding of the current status of the pandemic at the national, regional, state, and local levels. We recognize that data at the state level may differ from that available at the federal level. Our objective is to use consistent data sources and methods that allow for comparisons to be made across localities. We appreciate your continued support in identifying data discrepancies and improving data completeness and sharing across systems. We look forward to your feedback. All inquiries and requests for information should be directed to <https://wwwn.cdc.gov/dcs/ContactUs/Form>.

* Indicates absolute change in percentage points.

** Due to delayed reporting, this figure may underestimate total diagnostic tests and week-on-week changes in diagnostic tests.

DATA SOURCES

Note: Some dates may have incomplete data due to delays in reporting. Data may be backfilled over time, resulting in week-to-week changes.**Cases and Deaths:** State values are aggregated data provided by the states to the CDC. Historical reports of cases and deaths exceeding 1% of the total new cases or deaths reported in the US that day have been excluded. Data is through 8/5/2021; previous week is from 7/23 to 7/29.**Testing:** CELR (COVID-19 Electronic Lab Reporting) state health department-reported data. The term Nucleic Acid Amplification Test (NAAT) includes RT-PCR and other testing methods. Test positivity through 8/3/2021; previous week is from 7/21 to 7/27. Test volume through 7/30/2021; previous week is from 7/17 to 7/23.**Admissions:** Unified Hospitals Dataset in HHS Protect. Data is through 8/4, previous week is from 7/22 to 7/28.**Shortages:** Unified Hospitals Dataset in HHS Protect. Values presented show the latest reports from hospitals in the week ending 8/4/2021 for staffing and the week ending 8/4/2021 for supplies.**Vaccinations:** [CDC COVID Data Tracker](#). Data includes the Moderna, Pfizer BioNTech, and J&J/Janssen COVID-19 vaccines and reflects current data available as of 10:29 EDT on 08/06/2021. Data last updated 06:00 EDT on 08/06/2021. People initiating vaccination include those who have received the first dose of the Moderna or Pfizer-BioNTech vaccine as well as those who have received one dose of the J&J/Janssen vaccine. Population denominators reflect the subset of the population of the corresponding age range.**METHODS:** Details available on last two pages of report.

HOSPITAL ADMISSIONS

HOSPITAL PPE SUPPLIES

DATA SOURCES

Hospitalizations: Unified Hospitals Dataset in HHS Protect. These data exclude psychiatric, rehabilitation, and religious non-medical hospitals. Hospitals explicitly identified by states/regions as those from which we should not expect reports were excluded from the percent reporting figure. Data is through 8/4/2021.

PPE: Unified Hospitals Dataset in HHS Protect. These data exclude psychiatric, rehabilitation, and religious non-medical hospitals. Values presented show the latest reports from hospitals in the week ending 8/4/2021.

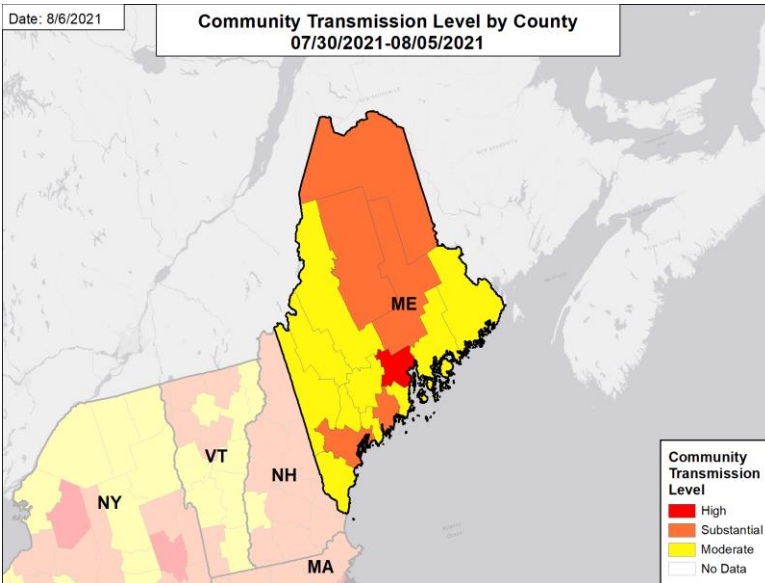

METHODS: Details available on last two pages of report.

MASSACHUSETTS

STATE PROFILE REPORT | 08.06.2021

COMMUNITY TRANSMISSION BY COUNTY AND METRO AREA

COUNTIES AND METRO AREAS BY COMBINED TRANSMISSION LEVEL

CATEGORY	LOW TRANSMISSION BLUE	MODERATE TRANSMISSION YELLOW	SUBSTANTIAL TRANSMISSION ORANGE	HIGH TRANSMISSION RED
# OF COUNTIES (CHANGE)	0 (↓2)	1 (↓5)	7 (↑3)	6 (↑4)
# OF METRO AREAS (CHANGE)	0 (↓1)	0 (↓2)	4 (↑1)	3 (↑2)

All Yellow Counties: Hampshire

All Orange Counties: Middlesex, Essex, Worcester, Norfolk, Plymouth, Berkshire, Franklin

All Orange CBSAs: Boston-Cambridge-Newton, Springfield, Worcester, Pittsfield

All Red Counties: Suffolk, Bristol, Hampden, Barnstable, Nantucket, Dukes

All Red CBSAs: Providence-Warwick, Barnstable Town, Vineyard Haven

DATA SOURCES

Maps and figures reflect 7-day average of data from 7/30-8/5 (cases), 7/28-8/3 (tests). Metro areas and counties are listed in order of the total number of cases in the last week from largest to smallest.

Note: Most recent days may have incomplete reporting.

Cases: County-level data is from a CDC managed aggregate county dataset compiled from state and local health departments; therefore, the values may not match those reported directly by the state. Data is through 8/5/2021.

Testing: CELR (COVID-19 Electronic Lab Reporting) state health department-reported data. Data is through 8/3/2021.

Combined Transmission Level: If the two indicators suggest different transmission levels, the higher level is selected. Previous week transmission levels are computed based on current data. See [CDC COVID Data Tracker](#).

METHODS: Details available on last two pages of report.

COVID-19 Reported Cases per 100,000 Population (last 7 days) and Percent of Total Population Fully Vaccinated

The purpose of this report is to develop a shared understanding of the current status of the pandemic at the national, regional, state, and local levels. We recognize that data at the state level may differ from that available at the federal level. Our objective is to use consistent data sources and methods that allow for comparisons to be made across localities. We appreciate your continued support in identifying data discrepancies and improving data completeness and sharing across systems. We look forward to your feedback. All inquiries and requests for information should be directed to <https://wwwn.cdc.gov/dcs/ContactUs/Form>.

All Red CBSAs: Rochester, St. Cloud, Faribault-Northfield, Willmar, Albert Lea, Worthington, Wahpeton

DATA SOURCES

Maps and figures reflect 7-day average of data from 7/30-8/5 (cases), 7/28-8/3 (tests). Metro areas and counties are listed in order of the total number of cases in the last week from largest to smallest.

Note: Most recent days may have incomplete reporting.

Cases: County-level data is from a CDC managed aggregate county dataset compiled from state and local health departments; therefore, the values may not match those reported directly by the state. Data is through 8/5/2021.

Testing: CELR (COVID-19 Electronic Lab Reporting) state health department-reported data. Data is through 8/3/2021.

Combined Transmission Level: If the two indicators suggest different transmission levels, the higher level is selected. Previous week transmission levels are computed based on current data. See [CDC COVID Data Tracker](#).

METHODS: Details available on last two pages of report.

COVID-19 Reported Cases per 100,000 Population (last 7 days) and Percent of Total Population Fully Vaccinated

The purpose of this report is to develop a shared understanding of the current status of the pandemic at the national, regional, state, and local levels. We recognize that data at the state level may differ from that available at the federal level. Our objective is to use consistent data sources and methods that allow for comparisons to be made across localities. We appreciate your continued support in identifying data discrepancies and improving data completeness and sharing across systems. We look forward to your feedback. All inquiries and requests for information should be directed to <https://wwwn.cdc.gov/dcs/ContactUs/Form>.

DATA SOURCES

Maps and figures reflect 7-day average of data from 7/30-8/5 (cases), 7/28-8/3 (tests). Metro areas and counties are listed in order of the total number of cases in the last week from largest to smallest.

Note: Most recent days may have incomplete reporting.

Cases: County-level data is from a CDC managed aggregate county dataset compiled from state and local health departments; therefore, the values may not match those reported directly by the state. Data is through 8/5/2021.

Testing: CELR (COVID-19 Electronic Lab Reporting) state health department-reported data. Data is through 8/3/2021.

Combined Transmission Level: If the two indicators suggest different transmission levels, the higher level is selected. Previous week transmission levels are computed based on current data. See [CDC COVID Data Tracker](#).

METHODS: Details available on last two pages of report.

STATE PROFILE REPORT 08.06.2021

MONTANA

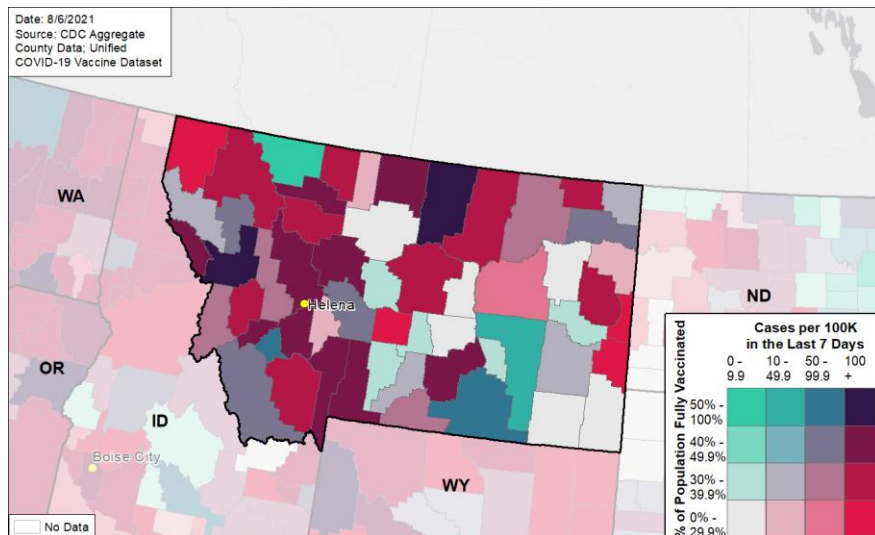

STATE SYNOPSIS

	LAST WEEK	CHANGE FROM PREVIOUS WEEK
RATE OF NEW COVID-19 CASES PER 100,000	137	+47%
NUCLEIC ACID AMPLIFICATION TEST (NAAT) POSITIVITY RATE	10.0%	+2.4%
NEW CONFIRMED COVID-19 HOSPITAL ADMISSIONS / 100 BEDS	6.8	+57%
RATE OF NEW COVID-19 DEATHS PER 100,000	1.5	+78%
COMMUNITY TRANSMISSION LEVEL	HIGH TRANSMISSION	
PEOPLE RECEIVED AT LEAST 1 DOSE	532,724 people	49.8% of total pop.
PEOPLE 18+ RECEIVED AT LEAST 1 DOSE	508,298 people	60.5% of 18+ pop.
PEOPLE FULLY VACCINATED	475,689 people	44.5% of total pop.
PEOPLE 18+ FULLY VACCINATED	457,467 people	54.4% of 18+ pop.

SARS-CoV-2 Variants of Concern

- Genomic surveillance data from Montana are not available for inclusion in this report.

COVID-19 Reported Cases per 100,000 Population (last 7 days) and Percent of Total Population Fully Vaccinated

The purpose of this report is to develop a shared understanding of the current status of the pandemic at the national, regional, state, and local levels. We recognize that data at the state level may differ from that available at the federal level. Our objective is to use consistent data sources and methods that allow for comparisons to be made across localities. We appreciate your continued support in identifying data discrepancies and improving data completeness and sharing across systems. We look forward to your feedback. All inquiries and requests for information should be directed to <https://wwwn.cdc.gov/dcs/ContactUs/Form>.

* Indicates absolute change in percentage points.

** Due to delayed reporting, this figure may underestimate total diagnostic tests and week-on-week changes in diagnostic tests.

DATA SOURCES

Note: Some dates may have incomplete data due to delays in reporting. Data may be backfilled over time, resulting in week-to-week changes.**Cases and Deaths:** State values are aggregated data provided by the states to the CDC. Historical reports of cases and deaths exceeding 1% of the total new cases or deaths reported in the US that day have been excluded. Data is through 8/5/2021; previous week is from 7/23 to 7/29.**Testing:** CELR (COVID-19 Electronic Lab Reporting) state health department-reported data. The term Nucleic Acid Amplification Test (NAAT) includes RT-PCR and other testing methods. Test positivity through 8/3/2021; previous week is from 7/21 to 7/27. Test volume through 7/30/2021; previous week is from 7/17 to 7/23.**Admissions:** Unified Hospitals Dataset in HHS Protect. Data is through 8/4, previous week is from 7/22 to 7/28.**Shortages:** Unified Hospitals Dataset in HHS Protect. Values presented show the latest reports from hospitals in the week ending 8/4/2021 for staffing and the week ending 8/4/2021 for supplies.**Vaccinations:** [CDC COVID Data Tracker](#). Data includes the Moderna, Pfizer BioNTech, and J&J/Janssen COVID-19 vaccines and reflects current data available as of 10:29 EDT on 08/06/2021. Data last updated 06:00 EDT on 08/06/2021. People initiating vaccination include those who have received the first dose of the Moderna or Pfizer-BioNTech vaccine as well as those who have received one dose of the J&J/Janssen vaccine. Population denominators reflect the subset of the population of the corresponding age range.**METHODS:** Details available on last two pages of report.

NEVADA

STATE PROFILE REPORT | 08.06.2021

COMMUNITY TRANSMISSION BY COUNTY AND METRO AREA

COUNTIES AND METRO AREAS BY COMBINED TRANSMISSION LEVEL

CATEGORY	LOW TRANSMISSION BLUE	MODERATE TRANSMISSION YELLOW	SUBSTANTIAL TRANSMISSION ORANGE	HIGH TRANSMISSION RED
# OF COUNTIES (CHANGE)	1 (0)	2 (↑1)	0 (↓1)	14 (0)
# OF METRO AREAS (CHANGE)	0 (0)	0 (↓1)	0 (↓1)	9 (↑2)

All Blue Counties: Eureka

All Yellow Counties: Pershing, Storey

All Red Counties: Clark, Washoe, Lyon, Carson City, Elko, Douglas, Nye, Churchill, Humboldt, Mineral, Lincoln, White Pine, Lander, Esmeralda

All Red CBSAs: Las Vegas-Henderson-Paradise, Reno, Fernley, Carson City, Elko, Gardnerville Ranchos, Pahrump, Fallon, Winnemucca

DATA SOURCES

Maps and figures reflect 7-day average of data from 7/30-8/5 (cases), 7/28-8/3 (tests). Metro areas and counties are listed in order of the total number of cases in the last week from largest to smallest.

Note: Most recent days may have incomplete reporting.

Cases: County-level data is from a CDC managed aggregate county dataset compiled from state and local health departments; therefore, the values may not match those reported directly by the state. Data is through 8/5/2021.

Testing: CELR (COVID-19 Electronic Lab Reporting) state health department-reported data. Data is through 8/3/2021.

Combined Transmission Level: If the two indicators suggest different transmission levels, the higher level is selected. Previous week transmission levels are computed based on current data. See [CDC COVID Data Tracker](#).

METHODS: Details available on last two pages of report.

COVID-19 Reported Cases per 100,000 Population (last 7 days) and Percent of Total Population Fully Vaccinated

The purpose of this report is to develop a shared understanding of the current status of the pandemic at the national, regional, state, and local levels. We recognize that data at the state level may differ from that available at the federal level. Our objective is to use consistent data sources and methods that allow for comparisons to be made across localities. We appreciate your continued support in identifying data discrepancies and improving data completeness and sharing across systems. We look forward to your feedback. All inquiries and requests for information should be directed to <https://wwwn.cdc.gov/dcs/ContactUs/Form>.

DATA SOURCES

County reporting completeness for New Jersey is 93.0%.

Vaccinations: [CDC COVID Data Tracker](#). Data includes the Moderna, Pfizer BioNTech, and J&J/Janssen COVID-19 vaccines and reflects current data available as of 10:29 EDT on 08/06/2021. Data last updated 06:00 EDT on 08/06/2021. Persons who are fully vaccinated include those who have received both doses of the Moderna or Pfizer-BioNTech vaccine as well as those who have received one dose of the J&J/Janssen vaccine. Allocations are made pro rata (equal based on population) from which jurisdictions are then to order.

METHODS: Details available on last two pages of report.

NEW JERSEY

STATE PROFILE REPORT | 08.06.2021

74 hospitals are expected to report in New Jersey

HOSPITAL ADMISSIONS

HOSPITAL PPE SUPPLIES

DATA SOURCES

Hospitalizations: Unified Hospitals Dataset in HHS Protect. These data exclude psychiatric, rehabilitation, and religious non-medical hospitals. Hospitals explicitly identified by states/regions as those from which we should not expect reports were excluded from the percent reporting figure. Data is through 8/4/2021.

PPE: Unified Hospitals Dataset in HHS Protect. These data exclude psychiatric, rehabilitation, and religious non-medical hospitals. Values presented show the latest reports from hospitals in the week ending 8/4/2021.

METHODS: Details available on last two pages of report.

All Orange Counties: Bergen, Middlesex, Essex, Hudson, Union, Passaic, Morris, Gloucester, Atlantic, Somerset, Mercer, Hunterdon, Sussex, Salem, Warren

All Orange CBSAs: Philadelphia-Camden-Wilmington, Atlantic City-Hammonton, Trenton-Princeton, Allentown-Bethlehem-Easton

All Red Counties: Monmouth, Ocean, Camden, Burlington, Cape May, Cumberland

All Red CBSAs: New York-Newark-Jersey City, Ocean City, Vineland-Bridgeton

DATA SOURCES

Maps and figures reflect 7-day average of data from 7/30-8/5 (cases), 7/28-8/3 (tests). Metro areas and counties are listed in order of the total number of cases in the last week from largest to smallest.

Note: Most recent days may have incomplete reporting.

Cases: County-level data is from a CDC managed aggregate county dataset compiled from state and local health departments; therefore, the values may not match those reported directly by the state. Data is through 8/5/2021.

Testing: CELR (COVID-19 Electronic Lab Reporting) state health department-reported data. Data is through 8/3/2021.

Combined Transmission Level: If the two indicators suggest different transmission levels, the higher level is selected. Previous week transmission levels are computed based on current data. See [CDC COVID Data Tracker](#).

METHODS: Details available on last two pages of report.

COVID-19 Reported Cases per 100,000 Population (last 7 days) and Percent of Total Population Fully Vaccinated

The purpose of this report is to develop a shared understanding of the current status of the pandemic at the national, regional, state, and local levels. We recognize that data at the state level may differ from that available at the federal level. Our objective is to use consistent data sources and methods that allow for comparisons to be made across localities. We appreciate your continued support in identifying data discrepancies and improving data completeness and sharing across systems. We look forward to your feedback. All inquiries and requests for information should be directed to <https://wwwn.cdc.gov/dcs/ContactUs/Form>.

DATA SOURCES

Maps and figures reflect 7-day average of data from 7/30-8/5 (cases), 7/28-8/3 (tests). Metro areas and counties are listed in order of the total number of cases in the last week from largest to smallest.

Note: Most recent days may have incomplete reporting.

Cases: County-level data is from a CDC managed aggregate county dataset compiled from state and local health departments; therefore, the values may not match those reported directly by the state. Data is through 8/5/2021.

Testing: CELR (COVID-19 Electronic Lab Reporting) state health department-reported data. Data is through 8/3/2021.

Combined Transmission Level: If the two indicators suggest different transmission levels, the higher level is selected. Previous week transmission levels are computed based on current data. See [CDC COVID Data Tracker](#).

METHODS: Details available on last two pages of report.

CASE RATES, NAAT POSITIVITY, HOSPITAL ADMISSIONS, AND DEATH RATES

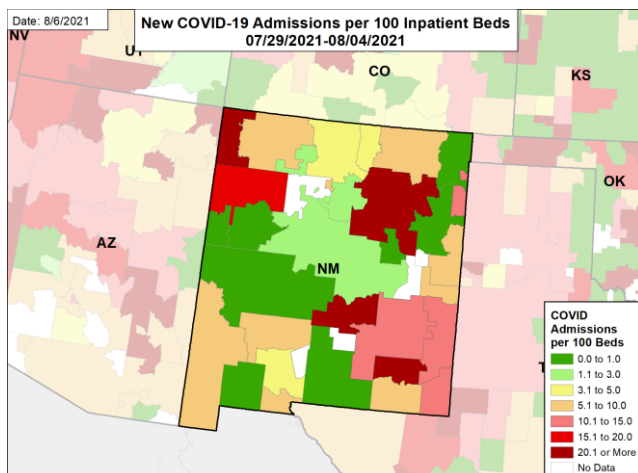

NEW CASES PER 100,000

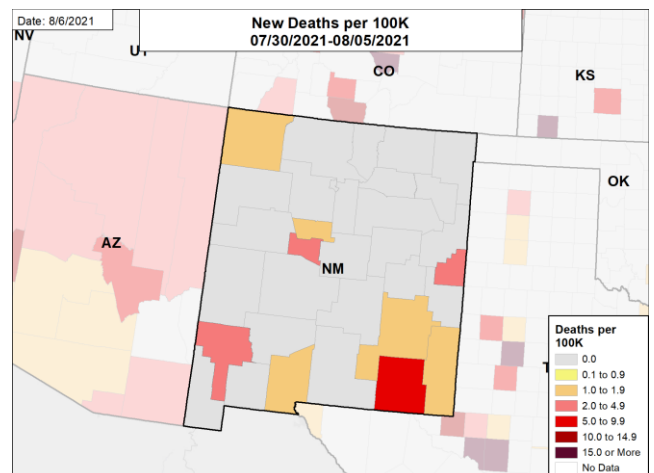

NUCLEIC ACID AMPLIFICATION TEST (NAAT) POSITIVITY

CONFIRMED NEW COVID-19 ADMISSIONS PER 100 INPATIENT BEDS

NEW DEATHS PER 100,000

DATA SOURCES

Note: Some dates may have incomplete data due to delays in reporting. Data may be backfilled over time, resulting in week-to-week changes.

Cases and Deaths: County-level data is from a CDC managed aggregate county dataset compiled from state and local health departments; therefore, the values may not match those reported directly by the state. As of 3/2/2021, Ohio changed their method of reporting COVID-19 deaths and will report deaths on the day of death, not the day of report, which could result in a fluctuation in the number of deaths from recent weeks due to delayed reporting. Data is through 8/5/2021.

Testing: CELR (COVID-19 Electronic Lab Reporting) state health department-reported data. The term Nucleic Acid Amplification Test (NAAT) includes RT-PCR and other testing methods. Data is through 8/3/2021.

Hospitalizations: Unified Hospitals Dataset in HHS Protect. Totals include only confirmed COVID-19 admissions. Data is through 8/4/2021.

METHODS: Details available on last two pages of report.

COVID-19 Reported Cases per 100,000 Population (last 7 days) and Percent of Total Population Fully Vaccinated

The purpose of this report is to develop a shared understanding of the current status of the pandemic at the national, regional, state, and local levels. We recognize that data at the state level may differ from that available at the federal level. Our objective is to use consistent data sources and methods that allow for comparisons to be made across localities. We appreciate your continued support in identifying data discrepancies and improving data completeness and sharing across systems. We look forward to your feedback. All inquiries and requests for information should be directed to <https://wwwn.cdc.gov/dcs/ContactUs/Form>.

Persons who are fully vaccinated include those who have received both doses of the Moderna or Pfizer-BioNTech vaccine as well as those who have received one dose of the J&J/Janssen vaccine. Allocations are made pro rata (equal based on population) from which jurisdictions are then to order.

METHODS: Details available on last two pages of report.

OREGON

STATE PROFILE REPORT | 08.06.2021

63 hospitals are expected to report in Oregon

HOSPITAL ADMISSIONS

HOSPITAL PPE SUPPLIES

DATA SOURCES

Hospitalizations: Unified Hospitals Dataset in HHS Protect. These data exclude psychiatric, rehabilitation, and religious non-medical hospitals. Hospitals explicitly identified by states/regions as those from which we should not expect reports were excluded from the percent reporting figure. Data is through 8/4/2021.

PPE: Unified Hospitals Dataset in HHS Protect. These data exclude psychiatric, rehabilitation, and religious non-medical hospitals. Values presented show the latest reports from hospitals in the week ending 8/4/2021.

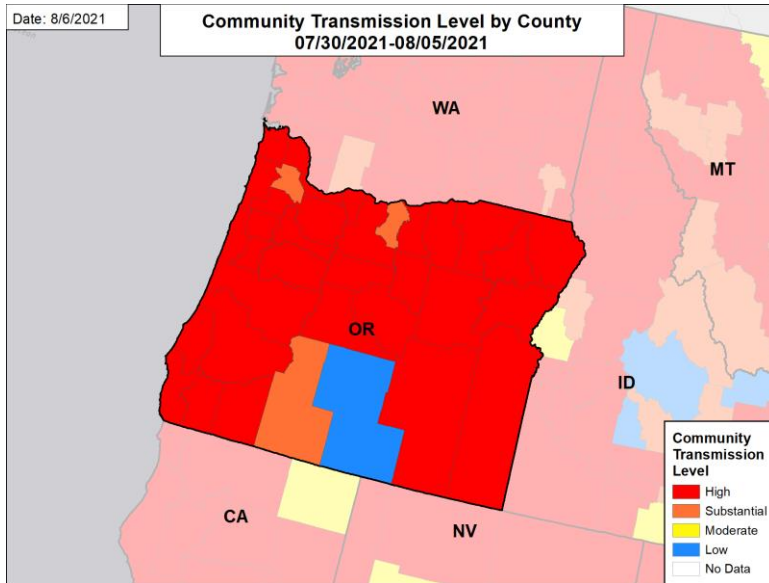

METHODS: Details available on last two pages of report.

OREGON

STATE PROFILE REPORT | 08.06.2021

COMMUNITY TRANSMISSION BY COUNTY AND METRO AREA

COUNTIES AND METRO AREAS BY COMBINED TRANSMISSION LEVEL

CATEGORY	LOW TRANSMISSION BLUE	MODERATE TRANSMISSION YELLOW	SUBSTANTIAL TRANSMISSION ORANGE	HIGH TRANSMISSION RED
# OF COUNTIES (CHANGE)	1 (↑1)	0 (↓2)	3 (↓11)	32 (↑12)
# OF METRO AREAS (CHANGE)	0 (0)	0 (0)	1 (↓8)	19 (↑8)

All Blue Counties: Lake

All Orange Counties: Washington, Klamath, Sherman

All Orange CBSAs: Klamath Falls

All Red Counties: Multnomah, Jackson, Lane, Clackamas, Marion, Umatilla, Douglas, Josephine, Deschutes, Linn, Polk, Coos, Yamhill, Benton, Clatsop, Curry, Union, Columbia, Baker, Lincoln, Crook, Wasco, Tillamook, Malheur, Morrow, Jefferson, Hood River, Wallowa, Harney, Wheeler, Grant, Gilliam

All Red CBSAs: Portland-Vancouver-Hillsboro, Medford, Eugene-Springfield, Salem, Hermiston-Pendleton, Roseburg, Grants Pass, Bend, Albany-Lebanon, Coos Bay, Corvallis, Astoria, Brookings, La Grande, Newport, Prineville, The Dalles, Ontario, Hood River

DATA SOURCES

Maps and figures reflect 7-day average of data from 7/30-8/5 (cases), 7/28-8/3 (tests). Metro areas and counties are listed in order of the total number of cases in the last week from largest to smallest.

Note: Most recent days may have incomplete reporting.

Cases: County-level data is from a CDC managed aggregate county dataset compiled from state and local health departments; therefore, the values may not match those reported directly by the state. Data is through 8/5/2021.

Testing: CELR (COVID-19 Electronic Lab Reporting) state health department-reported data. Data is through 8/3/2021.

Combined Transmission Level: If the two indicators suggest different transmission levels, the higher level is selected. Previous week transmission levels are computed based on current data. See [CDC COVID Data Tracker](#).

METHODS: Details available on last two pages of report.

COVID-19 Reported Cases per 100,000 Population (last 7 days) and Percent of Total Population Fully Vaccinated

The purpose of this report is to develop a shared understanding of the current status of the pandemic at the national, regional, state, and local levels. We recognize that data at the state level may differ from that available at the federal level. Our objective is to use consistent data sources and methods that allow for comparisons to be made across localities. We appreciate your continued support in identifying data discrepancies and improving data completeness and sharing across systems. We look forward to your feedback. All inquiries and requests for information should be directed to <https://wwwn.cdc.gov/dcs/ContactUs/Form>.

* Indicates absolute change in percentage points.

** Due to delayed reporting, this figure may underestimate total diagnostic tests and week-on-week changes in diagnostic tests.

DATA SOURCES

Note: Some dates may have incomplete data due to delays in reporting. Data may be backfilled over time, resulting in week-to-week changes.

Cases and Deaths: State values are aggregated data provided by the states to the CDC. Historical reports of cases and deaths exceeding 1% of the total new cases or deaths reported in the US that day have been excluded. Data is through 8/5/2021; previous week is from 7/23 to 7/29.

Testing: CELR (COVID-19 Electronic Lab Reporting) state health department-reported data. The term Nucleic Acid Amplification Test (NAAT) includes RT-PCR and other testing methods. Test positivity through 8/3/2021; previous week is from 7/21 to 7/27. Test volume through 7/30/2021; previous week is from 7/17 to 7/23.

Admissions: Unified Hospitals Dataset in HHS Protect. Data is through 8/4, previous week is from 7/22 to 7/28.

Shortages: Unified Hospitals Dataset in HHS Protect. Values presented show the latest reports from hospitals in the week ending 8/4/2021 for staffing and the week ending 8/4/2021 for supplies.

Vaccinations: [CDC COVID Data Tracker](#). Data includes the Moderna, Pfizer BioNTech, and J&J/Janssen COVID-19 vaccines and reflects current data available as of 10:29 EDT on 08/06/2021. Data last updated 06:00 EDT on 08/06/2021. People initiating vaccination include those who have received the first dose of the Moderna or Pfizer-BioNTech vaccine as well as those who have received one dose of the J&J/Janssen vaccine. Population denominators reflect the subset of the population of the corresponding age range.

METHODS: Details available on last two pages of report.

Cases and Deaths: Municipio-level data is from a CDC managed aggregate county dataset compiled from state and local health departments; therefore, the values may not match those reported directly by the state. Puerto Rico is shown at the territory level as deaths are not reported at the municipio level. Data is through 8/5/2021.

Testing: CELR (COVID-19 Electronic Lab Reporting) state health department-reported data. The term Nucleic Acid Amplification Test (NAAT) includes RT-PCR and other testing methods. Data is through 8/3/2021.

Hospitalizations: Unified Hospitals Dataset in HHS Protect. Totals include only confirmed COVID-19 admissions. Puerto Rico is shown at the territory level as HSAs are not defined. Data is through 8/4/2021.

METHODS: Details available on last two pages of report.

STATE PROFILE REPORT
08.06.2021

RHODE ISLAND

STATE SYNOPSIS

	LAST WEEK	CHANGE FROM PREVIOUS WEEK
RATE OF NEW COVID-19 CASES PER 100,000	127	+59%
NUCLEIC ACID AMPLIFICATION TEST (NAAT) POSITIVITY RATE	3.3%	+1.3%
NEW CONFIRMED COVID-19 HOSPITAL ADMISSIONS / 100 BEDS	1.0	0%
RATE OF NEW COVID-19 DEATHS PER 100,000	0.4	N/A
COMMUNITY TRANSMISSION LEVEL	HIGH TRANSMISSION	
PEOPLE RECEIVED AT LEAST 1 DOSE	722,429 people	68.2% of total pop.
PEOPLE 18+ RECEIVED AT LEAST 1 DOSE	679,004 people	79.4% of 18+ pop.
PEOPLE FULLY VACCINATED	656,423 people	62.0% of total pop.
PEOPLE 18+ FULLY VACCINATED	620,416 people	72.6% of 18+ pop.

SARS-CoV-2 Variants of Concern

- Genomic surveillance data from Rhode Island are not available for inclusion in this report.

COVID-19 Reported Cases per 100,000 Population (last 7 days) and Percent of Total Population Fully Vaccinated

The purpose of this report is to develop a shared understanding of the current status of the pandemic at the national, regional, state, and local levels. We recognize that data at the state level may differ from that available at the federal level. Our objective is to use consistent data sources and methods that allow for comparisons to be made across localities. We appreciate your continued support in identifying data discrepancies and improving data completeness and sharing across systems. We look forward to your feedback. All inquiries and requests for information should be directed to <https://wwwn.cdc.gov/dcs/ContactUs/Form>.

* Indicates absolute change in percentage points.

** Due to delayed reporting, this figure may underestimate total diagnostic tests and week-on-week changes in diagnostic tests.

DATA SOURCES

Note: Some dates may have incomplete data due to delays in reporting. Data may be backfilled over time, resulting in week-to-week changes.**Cases and Deaths:** State values are aggregated data provided by the states to the CDC. Historical reports of cases and deaths exceeding 1% of the total new cases or deaths reported in the US that day have been excluded. Data is through 8/5/2021; previous week is from 7/23 to 7/29.**Testing:** CELR (COVID-19 Electronic Lab Reporting) state health department-reported data. The term Nucleic Acid Amplification Test (NAAT) includes RT-PCR and other testing methods. Test positivity through 8/3/2021; previous week is from 7/21 to 7/27. Test volume through 7/30/2021; previous week is from 7/17 to 7/23.**Admissions:** Unified Hospitals Dataset in HHS Protect. Data is through 8/4, previous week is from 7/22 to 7/28.**Shortages:** Unified Hospitals Dataset in HHS Protect. Values presented show the latest reports from hospitals in the week ending 8/4/2021 for staffing and the week ending 8/4/2021 for supplies.**Vaccinations:** [CDC COVID Data Tracker](#). Data includes the Moderna, Pfizer BioNTech, and J&J/Janssen COVID-19 vaccines and reflects current data available as of 10:29 EDT on 08/06/2021. Data last updated 06:00 EDT on 08/06/2021. People initiating vaccination include those who have received the first dose of the Moderna or Pfizer-BioNTech vaccine as well as those who have received one dose of the J&J/Janssen vaccine. Population denominators reflect the subset of the population of the corresponding age range.**METHODS:** Details available on last two pages of report.

DATA SOURCES

County reporting completeness for Rhode Island is 95.1%.

Vaccinations: [CDC COVID Data Tracker](#). Data includes the Moderna, Pfizer BioNTech, and J&J/Janssen COVID-19 vaccines and reflects current data available as of 10:29 EDT on 08/06/2021. Data last updated 06:00 EDT on 08/06/2021. Persons who are fully vaccinated include those who have received both doses of the Moderna or Pfizer-BioNTech vaccine as well as those who have received one dose of the J&J/Janssen vaccine. Allocations are made pro rata (equal based on population) from which jurisdictions are then to order.

METHODS: Details available on last two pages of report.

RHODE ISLAND

STATE PROFILE REPORT | 08.06.2021

12 hospitals are expected to report in Rhode Island

HOSPITAL ADMISSIONS

HOSPITAL PPE SUPPLIES

DATA SOURCES

Hospitalizations: Unified Hospitals Dataset in HHS Protect. These data exclude psychiatric, rehabilitation, and religious non-medical hospitals. Hospitals explicitly identified by states/regions as those from which we should not expect reports were excluded from the percent reporting figure. Data is through 8/4/2021.

PPE: Unified Hospitals Dataset in HHS Protect. These data exclude psychiatric, rehabilitation, and religious non-medical hospitals. Values presented show the latest reports from hospitals in the week ending 8/4/2021.

METHODS: Details available on last two pages of report.

RHODE ISLAND

STATE PROFILE REPORT | 08.06.2021

COMMUNITY TRANSMISSION BY COUNTY AND METRO AREA

COUNTIES AND METRO AREAS BY COMBINED TRANSMISSION LEVEL

CATEGORY	LOW TRANSMISSION BLUE	MODERATE TRANSMISSION YELLOW	SUBSTANTIAL TRANSMISSION ORANGE	HIGH TRANSMISSION RED
# OF COUNTIES (CHANGE)	0 (0)	0 (↓1)	4 (0)	1 (↑1)
# OF METRO AREAS (CHANGE)	0 (0)	0 (0)	0 (↓1)	1 (↑1)

All Orange Counties: Providence, Kent, Washington, Bristol

All Red Counties: Newport

All Red CBSAs: Providence-Warwick

DATA SOURCES

Maps and figures reflect 7-day average of data from 7/30-8/5 (cases), 7/28-8/3 (tests). Metro areas and counties are listed in order of the total number of cases in the last week from largest to smallest.

Note: Most recent days may have incomplete reporting.

Cases: County-level data is from a CDC managed aggregate county dataset compiled from state and local health departments; therefore, the values may not match those reported directly by the state. Data is through 8/5/2021.

Testing: CELR (COVID-19 Electronic Lab Reporting) state health department-reported data. Data is through 8/3/2021.

Combined Transmission Level: If the two indicators suggest different transmission levels, the higher level is selected. Previous week transmission levels are computed based on current data. See [CDC COVID Data Tracker](#).

METHODS: Details available on last two pages of report.

All Red CBSAs: Sioux Falls, Rapid City, Watertown, Spearfish, Aberdeen, Pierre, Sioux City, Vermillion

DATA SOURCES

Maps and figures reflect 7-day average of data from 7/30-8/5 (cases), 7/28-8/3 (tests). Metro areas and counties are listed in order of the total number of cases in the last week from largest to smallest.

Note: Most recent days may have incomplete reporting.

Cases: County-level data is from a CDC managed aggregate county dataset compiled from state and local health departments; therefore, the values may not match those reported directly by the state. Data is through 8/5/2021.

Testing: CELR (COVID-19 Electronic Lab Reporting) state health department-reported data. Data is through 8/3/2021.

Combined Transmission Level: If the two indicators suggest different transmission levels, the higher level is selected. Previous week transmission levels are computed based on current data. See [CDC COVID Data Tracker](#).

METHODS: Details available on last two pages of report.

COVID-19 Reported Cases per 100,000 Population (last 7 days) and Percent of Total Population Fully Vaccinated

The purpose of this report is to develop a shared understanding of the current status of the pandemic at the national, regional, state, and local levels. We recognize that data at the state level may differ from that available at the federal level. Our objective is to use consistent data sources and methods that allow for comparisons to be made across localities. We appreciate your continued support in identifying data discrepancies and improving data completeness and sharing across systems. We look forward to your feedback. All inquiries and requests for information should be directed to <https://wwwn.cdc.gov/dcs/ContactUs/Form>.

DATA SOURCES

Maps and figures reflect 7-day average of data from 7/30-8/5 (cases), 7/28-8/3 (tests). Metro areas and counties are listed in order of the total number of cases in the last week from largest to smallest.

Note: Most recent days may have incomplete reporting.

Cases: County-level data is from a CDC managed aggregate county dataset compiled from state and local health departments; therefore, the values may not match those reported directly by the state. Data is through 8/5/2021.

Testing: CELR (COVID-19 Electronic Lab Reporting) state health department-reported data. Data is through 8/3/2021.

Combined Transmission Level: If the two indicators suggest different transmission levels, the higher level is selected. Previous week transmission levels are computed based on current data. See [CDC COVID Data Tracker](#).

METHODS: Details available on last two pages of report.

UTAH

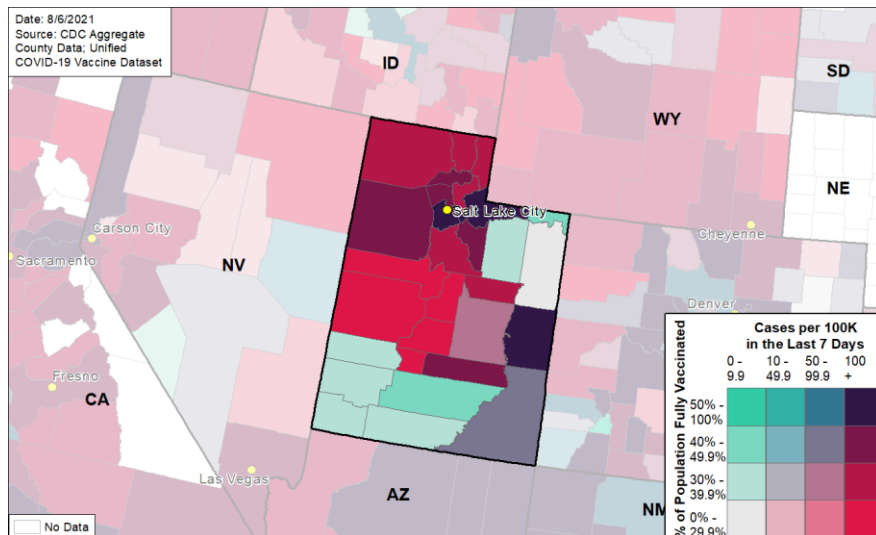

STATE SYNOPSIS

	LAST WEEK	CHANGE FROM PREVIOUS WEEK
RATE OF NEW COVID-19 CASES PER 100,000	197	+31%
NUCLEIC ACID AMPLIFICATION TEST (NAAT) POSITIVITY RATE	11.5%	+0.3%
NEW CONFIRMED COVID-19 HOSPITAL ADMISSIONS / 100 BEDS	7.3	+15%
RATE OF NEW COVID-19 DEATHS PER 100,000	1.1	+44%
COMMUNITY TRANSMISSION LEVEL	HIGH TRANSMISSION	
PEOPLE RECEIVED AT LEAST 1 DOSE	1,686,158 people	52.6% of total pop.
PEOPLE 18+ RECEIVED AT LEAST 1 DOSE	1,557,841 people	68.5% of 18+ pop.
PEOPLE FULLY VACCINATED	1,446,691 people	45.1% of total pop.
PEOPLE 18+ FULLY VACCINATED	1,350,863 people	59.4% of 18+ pop.

SARS-CoV-2 Variants of Concern

- The following proportions of variants of concern have been identified in [Utah](#): B.1.1.7 (Alpha, 5.3%), B.1.617.2 (Delta, 84.9%), P.1 (Gamma, 3.1%)

COVID-19 Reported Cases per 100,000 Population (last 7 days) and Percent of Total Population Fully Vaccinated

The purpose of this report is to develop a shared understanding of the current status of the pandemic at the national, regional, state, and local levels. We recognize that data at the state level may differ from that available at the federal level. Our objective is to use consistent data sources and methods that allow for comparisons to be made across localities. We appreciate your continued support in identifying data discrepancies and improving data completeness and sharing across systems. We look forward to your feedback. All inquiries and requests for information should be directed to <https://wwwn.cdc.gov/dcs/ContactUs/Form>.

* Indicates absolute change in percentage points.

** Due to delayed reporting, this figure may underestimate total diagnostic tests and week-on-week changes in diagnostic tests.

DATA SOURCES

Note: Some dates may have incomplete data due to delays in reporting. Data may be backfilled over time, resulting in week-to-week changes.**Cases and Deaths:** State values are aggregated data provided by the states to the CDC. Historical reports of cases and deaths exceeding 1% of the total new cases or deaths reported in the US that day have been excluded. Data is through 8/5/2021; previous week is from 7/23 to 7/29.**Testing:** CELR (COVID-19 Electronic Lab Reporting) state health department-reported data. The term Nucleic Acid Amplification Test (NAAT) includes RT-PCR and other testing methods. Test positivity through 8/3/2021; previous week is from 7/21 to 7/27. Test volume through 7/30/2021; previous week is from 7/17 to 7/23.**Admissions:** Unified Hospitals Dataset in HHS Protect. Data is through 8/4, previous week is from 7/22 to 7/28.**Shortages:** Unified Hospitals Dataset in HHS Protect. Values presented show the latest reports from hospitals in the week ending 8/4/2021 for staffing and the week ending 8/4/2021 for supplies.**Vaccinations:** [CDC COVID Data Tracker](#). Data includes the Moderna, Pfizer BioNTech, and J&J/Janssen COVID-19 vaccines and reflects current data available as of 10:29 EDT on 08/06/2021. Data last updated 06:00 EDT on 08/06/2021. People initiating vaccination include those who have received the first dose of the Moderna or Pfizer-BioNTech vaccine as well as those who have received one dose of the J&J/Janssen vaccine. Population denominators reflect the subset of the population of the corresponding age range.**METHODS:** Details available on last two pages of report.

COVID-19 Reported Cases per 100,000 Population (last 7 days) and Percent of Total Population Fully Vaccinated

The purpose of this report is to develop a shared understanding of the current status of the pandemic at the national, regional, state, and local levels. We recognize that data at the state level may differ from that available at the federal level. Our objective is to use consistent data sources and methods that allow for comparisons to be made across localities. We appreciate your continued support in identifying data discrepancies and improving data completeness and sharing across systems. We look forward to your feedback. All inquiries and requests for information should be directed to <https://wwwn.cdc.gov/dcs/ContactUs/Form>.

* Indicates absolute change in percentage points.

** Due to delayed reporting, this figure may underestimate total diagnostic tests and week-on-week changes in diagnostic tests.

DATA SOURCES

Note: Some dates may have incomplete data due to delays in reporting. Data may be backfilled over time, resulting in week-to-week changes.

Cases and Deaths: State values are aggregated data provided by the states to the CDC. Historical reports of cases and deaths exceeding 1% of the total new cases or deaths reported in the US that day have been excluded. Data is through 8/5/2021; previous week is from 7/23 to 7/29.

Testing: CELR (COVID-19 Electronic Lab Reporting) state health department-reported data. The term Nucleic Acid Amplification Test (NAAT) includes RT-PCR and other testing methods. Test positivity through 8/3/2021; previous week is from 7/21 to 7/27. Test volume through 7/30/2021; previous week is from 7/17 to 7/23.

Admissions: Unified Hospitals Dataset in HHS Protect. Data is through 8/4, previous week is from 7/22 to 7/28.

Shortages: Unified Hospitals Dataset in HHS Protect. Values presented show the latest reports from hospitals in the week ending 8/4/2021 for staffing and the week ending 8/4/2021 for supplies.

Vaccinations: [CDC COVID Data Tracker](#). Data includes the Moderna, Pfizer BioNTech, and J&J/Janssen COVID-19 vaccines and reflects current data available as of 10:29 EDT on 08/06/2021. Data last updated 06:00 EDT on 08/06/2021. People initiating vaccination include those who have received the first dose of the Moderna or Pfizer-BioNTech vaccine as well as those who have received one dose of the J&J/Janssen vaccine. Population denominators reflect the subset of the population of the corresponding age range.

METHODS: Details available on last two pages of report.

All Red CBSAs: Virginia Beach-Norfolk-Newport News, Richmond, Roanoke, Lynchburg, Blacksburg-Christiansburg, Danville, Kingsport-Bristol, Big Stone Gap, Bluefield, Martinsville

DATA SOURCES

Maps and figures reflect 7-day average of data from 7/30-8/5 (cases), 7/28-8/3 (tests). Metro areas and counties are listed in order of the total number of cases in the last week from largest to smallest.

Note: Most recent days may have incomplete reporting.

Cases: County-level data is from a CDC managed aggregate county dataset compiled from state and local health departments; therefore, the values may not match those reported directly by the state. Data is through 8/5/2021.

Testing: CELR (COVID-19 Electronic Lab Reporting) state health department-reported data. Data is through 8/3/2021.

Combined Transmission Level: If the two indicators suggest different transmission levels, the higher level is selected. Previous week transmission levels are computed based on current data. See [CDC COVID Data Tracker](#).

METHODS: Details available on last two pages of report.

PEOPLE 18+ INITIATING VACCINATION (PERCENT OF POPULATION)	2,761 (0.2%)	+14.6%	200,648 (0.8%)	2,641,065 (1.0%)

* Indicates absolute change in percentage points.

** Due to delayed reporting, this figure may underestimate total diagnostic tests and week-on-week changes in diagnostic tests.

DATA SOURCES

Note: Some dates may have incomplete data due to delays in reporting. Data may be backfilled over time, resulting in week-to-week changes.

Cases and Deaths: State values are aggregated data provided by the states to the CDC. Historical reports of cases and deaths exceeding 1% of the total new cases or deaths reported in the US that day have been excluded. Data is through 8/5/2021; previous week is from 7/23 to 7/29.

Testing: CELR (COVID-19 Electronic Lab Reporting) state health department-reported data. The term Nucleic Acid Amplification Test (NAAT) includes RT-PCR and other testing methods. Test positivity through 8/3/2021; previous week is from 7/21 to 7/27. Test volume through 7/30/2021; previous week is from 7/17 to 7/23.

Admissions: Unified Hospitals Dataset in HHS Protect. Data is through 8/4, previous week is from 7/22 to 7/28.

Shortages: Unified Hospitals Dataset in HHS Protect. Values presented show the latest reports from hospitals in the week ending 8/4/2021 for staffing and the week ending 8/4/2021 for supplies.

Vaccinations: [CDC COVID Data Tracker](#). Data includes the Moderna, Pfizer BioNTech, and J&J/Janssen COVID-19 vaccines and reflects current data available as of 10:29 EDT on 08/06/2021. Data last updated 06:00 EDT on 08/06/2021. People initiating vaccination include those who have received the first dose of the Moderna or Pfizer-BioNTech vaccine as well as those who have received one dose of the J&J/Janssen vaccine. Population denominators reflect the subset of the population of the corresponding age range.

METHODS: Details available on last two pages of report.

COVID-19 Reported Cases per 100,000 Population (last 7 days) and Percent of Total Population Fully Vaccinated

The purpose of this report is to develop a shared understanding of the current status of the pandemic at the national, regional, state, and local levels. We recognize that data at the state level may differ from that available at the federal level. Our objective is to use consistent data sources and methods that allow for comparisons to be made across localities. We appreciate your continued support in identifying data discrepancies and improving data completeness and sharing across systems. We look forward to your feedback. All inquiries and requests for information should be directed to <https://wwwn.cdc.gov/dcs/ContactUs/Form>.

STATE PROFILE REPORT | 08.06.2021

28 hospitals are expected to report in Wyoming

HOSPITAL ADMISSIONS

HOSPITAL PPE SUPPLIES

DATA SOURCES

Hospitalizations: Unified Hospitals Dataset in HHS Protect. These data exclude psychiatric, rehabilitation, and religious non-medical hospitals. Hospitals explicitly identified by states/regions as those from which we should not expect reports were excluded from the percent reporting figure. Data is through 8/4/2021.

PPE: Unified Hospitals Dataset in HHS Protect. These data exclude psychiatric, rehabilitation, and religious non-medical hospitals. Values presented show the latest reports from hospitals in the week ending 8/4/2021.

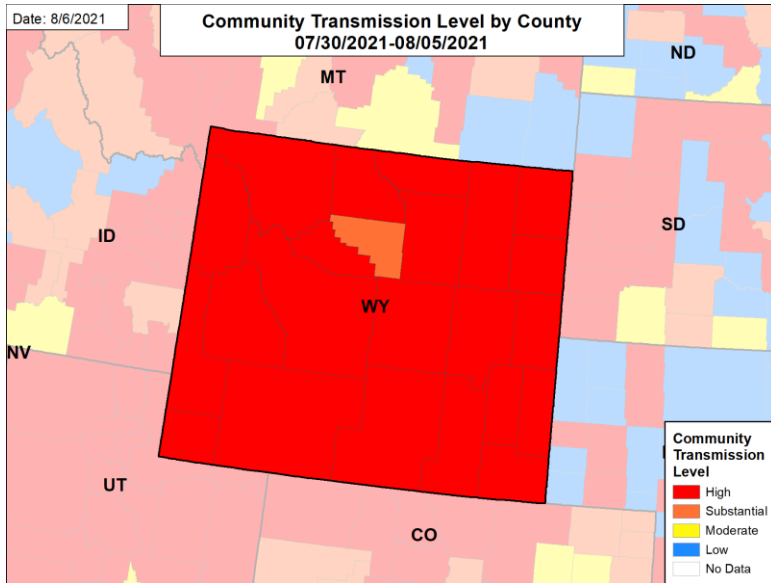

METHODS: Details available on last two pages of report.

WYOMING

STATE PROFILE REPORT | 08.06.2021

COMMUNITY TRANSMISSION BY COUNTY AND METRO AREA

COUNTIES AND METRO AREAS BY COMBINED TRANSMISSION LEVEL

CATEGORY	LOW TRANSMISSION BLUE	MODERATE TRANSMISSION YELLOW	SUBSTANTIAL TRANSMISSION ORANGE	HIGH TRANSMISSION RED
# OF COUNTIES (CHANGE)	0 (↓1)	0 (↓2)	1 (↑1)	22 (↑2)
# OF METRO AREAS (CHANGE)	0 (0)	0 (0)	0 (0)	9 (0)

All Orange Counties: Washakie

All Red Counties: Laramie, Natrona, Campbell, Fremont, Uinta, Sheridan, Albany, Sweetwater, Park, Teton, Carbon, Converse, Lincoln, Goshen, Platte, Sublette, Big Horn, Johnson, Weston, Niobrara, Crook, Hot Springs

All Red CBSAs: Cheyenne, Casper, Gillette, Riverton, Evanston, Sheridan, Laramie, Rock Springs, Jackson

DATA SOURCES

Maps and figures reflect 7-day average of data from 7/30-8/5 (cases), 7/28-8/3 (tests). Metro areas and counties are listed in order of the total number of cases in the last week from largest to smallest.

Note: Most recent days may have incomplete reporting.

Cases: County-level data is from a CDC managed aggregate county dataset compiled from state and local health departments; therefore, the values may not match those reported directly by the state. Data is through 8/5/2021.

Testing: CELR (COVID-19 Electronic Lab Reporting) state health department-reported data. Data is through 8/3/2021.

Combined Transmission Level: If the two indicators suggest different transmission levels, the higher level is selected. Previous week transmission levels are computed based on current data. See [CDC COVID Data Tracker](#).

METHODS: Details available on last two pages of report.

PERCENT OF 65+ POPULATION FULLY VACCINATED

DATA SOURCES

Vaccinations: [CDC COVID Data Tracker](#). Data includes the Moderna, Pfizer BioNTech, and J&J/Janssen COVID-19 vaccines and reflects current data available as of 10:29 EDT on 08/06/2021. Data last updated 06:00 EDT on 08/06/2021. Persons who are fully vaccinated include those who have received both doses of the Moderna or Pfizer-BioNTech vaccine as well as those who have received one dose of the J&J/Janssen vaccine. Allocations are made pro rata (equal based on population) from which jurisdictions are then to order. The following states have ≤80% completeness reporting vaccinations by county, which may result in underestimates of vaccination data for counties: VT (74%), WV (58%), GA (54%), VA (51%), TX (0%), and HI (0%).

METHODS: Details available on last two pages of report.

NATIONAL COVID-19 VACCINE SUMMARY AS OF 8/6

DOSES DELIVERED	405,102,715 122,020 per 100k	DOSES ADMINISTERED	349,787,479 105,359 per 100k
PEOPLE RECEIVED AT LEAST ONE DOSE	193,764,457 58.4% of total pop.	PEOPLE FULLY VACCINATED	165,918,256 50.0% of total pop.
PEOPLE 18+ RECEIVED AT LEAST ONE DOSE	182,368,493 70.6% of 18+ pop.	PEOPLE 18+ FULLY VACCINATED	157,304,262 60.9% of 18+ pop.
PEOPLE 65+ RECEIVED AT LEAST ONE DOSE	49,381,256 90.1% of 65+ pop.	PEOPLE 65+ FULLY VACCINATED	43,935,646 80.1% of 65+ pop.

DAILY NATIONAL COUNT OF VACCINE DOSES ADMINISTERED BY DATE OF ADMINISTRATION

DATA SOURCES

Vaccinations: [CDC COVID Data Tracker](#). Data includes the Moderna, Pfizer BioNTech, and J&J/Janssen COVID-19 vaccines and reflects current data available as of 10:29 EDT on 08/06/2021. Data last updated 06:00 EDT on 08/06/2021. Persons who are fully vaccinated include those who have received both doses of the Moderna or Pfizer-BioNTech vaccine as well as those who have received one dose of the J&J/Janssen vaccine. Allocations are made pro rata (equal based on population) from which jurisdictions are then to order. Due to delays in reporting, data on doses administered in recent days (as reflected by lighter blue coloring in the Daily National Count figure) may be an underestimate of the actual value.

METHODS: Details available on last two pages of report.

National Picture: Vaccinations

NATIONAL SUMMARY OF VACCINATIONS BY RACE/ETHNICITY

NATIONAL SUMMARY OF VACCINATIONS BY AGE

DATA SOURCES

Vaccinations: CDC COVID Data Tracker. Data includes the Moderna, Pfizer BioNTech, and J&J/Janssen COVID-19 vaccines and reflects current data available as of 10:29 EDT on 08/06/2021. Data last updated 06:00 EDT on 08/06/2021. Persons who are fully vaccinated include those who have received both doses of the Moderna or Pfizer-BioNTech vaccine as well as those who have received one dose of the J&J/Janssen vaccine. Allocations are made pro rata (equal based on population) from which jurisdictions are then to order. Race/Ethnicity data were available for 58.1% receiving at least one dose and 63.0% fully vaccinated. Age data were available for 92.1% receiving at least one dose and 92.2% fully vaccinated. Texas does not report demographic-specific dose number information to CDC, so data for Texas are not represented in demographic trends figures. "NH" stands for Non-Hispanic/Latinx, "AI/AN" stands for American Indian or Alaska Native, and "NH/PI" stands for Native Hawaiian or Pacific Islander.

METHODS: Details available on last two pages of report.

COUNTIES BY COMBINED TRANSMISSION LEVEL

CATEGORY	LOW TRANSMISSION BLUE	MODERATE TRANSMISSION YELLOW	SUBSTANTIAL TRANSMISSION ORANGE	HIGH TRANSMISSION RED
# OF COUNTIES (CHANGE)	134 (↓46)	236 (↓319)	560 (↓26)	2290 (↑391)
% OF COUNTIES (CHANGE)	4.2% (↓1.4%)	7.3% (↓9.9%)	17.4% (↓0.8%)	71.1% (↑12.1%)

DATA SOURCES

Maps and figures reflect 7-day average of data from 7/30-8/5 (cases), 7/28-8/3 (tests).

Note: Most recent days may have incomplete reporting.

Cases: County-level data is from a CDC managed aggregate county dataset compiled from state and local health departments; therefore, the values may not match those reported directly by the state. Data is through 8/5/2021. As of 6/4, Florida is only updating their county case data on Fridays, therefore values for the last week may be an underestimate. As of 6/30, Nebraska is no longer updating their state dashboard and since 5/26, Nebraska was reporting by Local Health Department instead of county; therefore, after 5/25 no county case data is available.

Testing: Combination of CELR (COVID-19 Electronic Lab Reporting) state health department-reported data and HHS Protect laboratory data (provided directly to Federal Government from public health labs, hospital labs, and commercial labs). Data is through 8/3/2021.

County Percentages: Based on a denominator of 3,220 county/county-equivalents, including states, the District of Columbia, and Puerto Rico municipalities.

Combined Transmission Level: If the two indicators suggest different transmission levels, the higher level is selected. Previous week transmission levels are computed based on current data. See [CDC COVID Data Tracker](#).

METHODS: Details available on last two pages of report.

DATA SOURCES & METHODS

STATE PROFILE REPORT | 08.06.2021

- Some dates may have incomplete data due to delays and/or differences in state reporting. Data may be backfilled over time, resulting in week-to-week changes between reports. It is critical that states provide as up-to-date data as possible. Figures and values may also differ from state reports due to differing methodologies.
- All population values are vintage 2019 US Census data.
- Cases and Deaths:** County-level data is from a CDC-managed aggregate county dataset compiled from state and local health departments; therefore, the values may not match those reported directly by the state. State values are aggregated data provided by the states to the CDC. Data and week-on-week changes are as of 11:34 EDT on 08/06/2021. Cases and deaths are generally shown by date of report. Some states periodically adjust their past data with CDC to show it by case date and death date, as determined by the state. Between adjustments, new cases and deaths continue to be shown by date of report. This can potentially lead to over-estimates of the week-on-week increases in cases or deaths.
 - As of 6/4/21, Florida is only updating their county case data on Fridays, therefore values for the last week may be an underestimate. As of 6/5/21, Florida is no longer updating their county death data, therefore after 6/4 no county death data is available. As of 6/30/21, Nebraska is no longer updating their state dashboard and since 5/26, Nebraska was reporting by Local Health Department instead of county; therefore, after 5/25 no county case and death data is available. As of 3/2/2021, Ohio changed their method of reporting COVID-19 deaths and will report deaths on the day of death, not the day of report, which could result in a fluctuation in the number of deaths from recent weeks due to delayed reporting. Puerto Rico deaths are shown at the territory level as deaths are not reported at the municipality level.
 - Historical reports of cases and deaths — for which backfill dates are not available — that exceed 1% of the total new cases or deaths reported in the US that day have been excluded from state daily and weekly trends. However, these are still present in county-level data. Historical reports in the last two weeks (7/23/21 – 8/5/21) are:
 - Colorado cases: 188 on 7/23; 16 on 7/24; 16 on 7/25; 18 on 7/26; 282 on 7/27; 316 on 7/28; 162 on 7/29; 357 on 7/30; 106 on 8/2; 426 on 8/3; 307 on 8/4; and 431 on 8/5
 - Connecticut cases: 152 on 8/5
 - Delaware deaths: 130 on 7/30
 - District of Columbia cases: 6 on 8/2
 - Indiana cases: 45 on 8/5
 - Michigan deaths: 1 on 7/27; 9 on 7/30; and 10 on 8/3
 - Mississippi deaths: 4 on 7/25; 10 on 7/26; 6 on 7/27; 4 on 8/1; and 13 on 8/2
 - Texas cases: 345 on 7/23; 122 on 7/24; 28 on 7/25; 36 on 7/26; 142 on 7/27; 120 on 7/28; 229 on 7/29; 334 on 7/30; 164 on 7/31; 44 on 8/1; 19 on 8/2; 322 on 8/3; 333 on 8/4; and 82 on 8/5
- Testing:** The data presented represent viral COVID-19 laboratory diagnostic and screening test results — not individual people — and exclude antibody and antigen tests, unless stated otherwise. The term Nucleic Acid Amplification Test (NAAT) includes RT-PCR and other testing methods, which were always included in the testing data. CELR (COVID-19 Electronic Lab Reporting) state health department-reported data are used to describe county-level viral COVID-19 NAAT result totals when information is available on patients' county of residence or healthcare providers' practice location. HHS Protect laboratory data (provided directly to Federal Government from public health labs, hospital labs, and commercial labs) are used otherwise. Because the data are deidentified, total NAATs are the number of tests performed, not the number of individuals tested. NAAT positivity rate is the number of positive tests divided by the number of tests performed and resulted. For test positivity, last week data are from 7/28 to 8/3; previous week data are from 7/21 to 7/27; the week one month before data are from 6/30 to 7/6. For number of tests, last week data are from 7/24 to 7/30; previous week data are from 7/17 to 7/23. HHS Protect data is recent as of 09:39 EDT on 08/06/2021. Testing data are inclusive of everything received and processed by the CELR system as of 19:00 EDT on 08/05/2021.
- Hospitalizations:** Unified Hospitals Dataset in HHS Protect. These data exclude psychiatric, rehabilitation, and religious non-medical hospitals. In addition, hospitals explicitly identified by states/regions as those from which we should not expect reports were excluded from the percent reporting figure. The data presented represents raw data provided; we are working diligently with state liaisons to improve reporting consistency. Data is recent as of 10:08 EDT on 08/06/2021.
- Hospital PPE:** Unified Hospitals Dataset in HHS Protect. This figure may differ from state data due to differences in hospital lists and reporting between federal and state systems. These data exclude psychiatric, rehabilitation, and religious non-medical hospitals. Hospitals explicitly identified by states/regions as those from which we should not expect reports were excluded from the percent reporting figure. Data is recent as of 10:01 EDT on 08/06/2021.
- State, County, and Metro Area Community Transmission Levels**
 - High Transmission:** Those states, CBSAs, and counties that during the last week reported 100 or more cases per 100,000 population or a lab test positivity at or above 10.0%.
 - Substantial Transmission:** Those states, CBSAs, and counties that during the last week reported from 50 to 99 cases per 100,000 population or a lab test positivity from 8.0% to 9.9%.
 - Moderate Transmission:** Those states, CBSAs, and counties that during the last week reported from 10 to 49 cases per 100,000 population or a lab test positivity from 5.0% to 7.9%.
 - Low Transmission:** Those states, CBSAs, and counties that during the last week reported from 0 to 9 cases per 100,000 population or a lab test positivity from 0.0% to 4.9%.
 - If the two indicators suggest different transmission levels, the higher level is selected. Previous week transmission levels are computed based on current data. See [CDC COVID Data Tracker](#).
- Shortages:** Unified Hospitals Dataset in HHS Protect. These data exclude psychiatric, rehabilitation, and religious non-medical hospitals. Includes hospitals currently reporting a staffing shortage. Low supply is defined as a hospital reporting they are not able to maintain a 3-day supply of N95s, face masks, gloves, gowns, or eye protection. Data is recent as of 10:01 EDT on 08/06/2021.
- Vaccinations:** [CDC COVID Data Tracker](#). Data includes the Moderna, Pfizer BioNTech, and J&J/Janssen COVID-19 vaccines and reflects current data available as of 10:29 EDT on 08/06/2021. Data last updated 06:00 EDT on 08/06/2021. Persons who are fully vaccinated include those who have received both doses of the Moderna or Pfizer-BioNTech vaccine as well as those who have received one dose of the J&J/Janssen vaccine. Allocations are made pro rata (equal based on population) from which jurisdictions are then to order. COVID-19 vaccines available in the U.S. are authorized only for persons ≥12 years of age (Pfizer-BioNTech) or ≥18 years of age (Moderna and J&J/Janssen). Population denominators reflect the subset of the population of the corresponding age range when specified (e.g., 12+, 12-17, 18+, or 65+), otherwise the total population is used. The following states have ≤80% completeness reporting vaccinations by county, which may result in underestimates of vaccination data for counties: VT (74%), WV (58%), GA (54%), VA (51%), TX (0%), and HI (0%).
- Variants:** Data from [CDC COVID Data Tracker](#). Variant proportions are based on representative CDC sequence data (NS3 + CDC-funded contract sequencing) collected over a 4-week period ending July 17, 2021 for states with at least 300 sequences. Proportions are calculated using empirical (unweighted) data, which are subject to change over time and will be updated as more data become available. Proportions of variants do not represent the total number that may be circulating in the United States and may not match cases reported by states, territories, tribes, and local officials. For states and jurisdictions not listed, CDC has insufficient genomic surveillance data for the specified time period. Data updated by 19:00 ET on 8/3. Data pulled 10:36 EDT on 08/05/2021.

Color threshold values are rounded before color classification

Metric	Dark Green	Light Green	Yellow	Orange	Light Red	Red	Dark Red	Darkest Red
New cases per 100,000 population per week	≤4	5 – 9	10 – 49	50 – 99	100 – 199	200 – 499	500 – 749	≥750
Percent change in new cases per 100,000 population	≤-26%	-25% – -11%	-10% – 0%	1% – 10%	11% – 99%	100% – 999%	≥1000%	
Diagnostic test result positivity rate	≤2.9%	3.0% – 4.9%	5.0% – 7.9%	8.0% – 9.9%	10.0% – 14.9%	15.0% – 19.9%	20.0% – 24.9%	≥25.0%
Change in test positivity	≤-2.1%	-2.0% – -0.6%	-0.5% – 0.0%	0.1% – 0.5%	0.6% – 2.0%		≥2.1%	
Total diagnostic tests resulted per 100,000 population per week	≥5000	3000 – 4999	2000 – 2999	1000 – 1999	500 – 999		≤499	
Percent change in tests per 100,000 population	≥26%	11% – 25%	1% – 10%	-10% – 0%	-25% – -11%		≤-26%	
COVID-19 deaths per 100,000 population per week	0.0		0.1 – 0.9	1.0 – 1.9	2.0 – 4.9	5.0 – 9.9	10.0 – 14.9	≥15.0
Percent change in deaths per 100,000 population	≤-26%	-25% – -11%	-10% – 0%	1% – 10%	11% – 25%		≥26%	
Confirmed and suspected new COVID-19 hospital admissions per 100 beds	≤2.0	2.1 – 5.0	5.1 – 10.0	10.1 – 15.0	15.1 – 20.0	20.1 – 25.0	≥25.1	
Confirmed new COVID-19 hospital admissions per 100 beds	≤1.0	1.1 – 3.0	3.1 – 5.0	5.1 – 10.0	10.1 – 15.0	15.1 – 20.0	≥20.1	
Change in new COVID-19 hospital admissions per 100 beds	≤-26%	-25% – -11%	-10% – 0%	1% – 10%	11% – 25%		≥26%	
Percent of hospitals with supply/staff shortages	≤9%		10% – 19%	20% – 29%	30% – 39%		≥40%	
Change in percent of hospitals with supply/staff shortages	≤-10%	-9% – -5%	-4% – 0%	1% – 4%	5% – 9%		≥10%	
Percent of Population Fully Vaccinated (State Level)	0.0 – 39.9%		40.0 – 44.9%	45.0 – 49.9%	50.0 – 54.9%		≥55.0%
